

Direction:

Read the following passage carefully and answer the questions given below them. Certain words/phrases have been printed in bold to help you locate them while answering some of the questions.

The Chief Justice of India (CJI) and the chief justices of high courts enjoy absolute power in the matter of assigning cases to colleague judges. The nature of the power **vested** in them is susceptible to misuse and this precisely is what the four judges are **insinuating** against the CJI. They have alleged that cases of national importance are marked to preferred judges to secure the desired results. It appears that the judges who have revolted against the CJI were upset by the assignment of Judge B M Loya's matter to Justice Arun Mishra, a junior judge.

The mere fact that Justice Mishra is a junior judge in the hierarchy of judges by itself is not a good enough ground to accuse the CJI of wrongdoing, unless there is something more to this than meets the eye. A junior judge is as much a constitutional functionary as his senior colleague. Both discharge the same judicial functions. Hence, by reason of seniority alone, one cannot claim the **prerogative** to deal with a particular case more so because it is perceived to be of public importance. Having said this, it appears that as a matter of practice and convention, the cases of so-called public importance are generally referred to senior judges. Since the CJI has seemingly deviated from this practice and as it has **raised dust and storm**, it falls upon the CJI to clear the air as to why Justice Mishra was preferred over his seniors. Earlier also, as reported, in an equally sensational matter, this very judge was preferred over his senior colleagues. Therefore, not only the CJI, all those who would like to see an independent and fearless judiciary need to look into the matter.

The CJI has preferred to maintain absolute silence. There is no word from him. A former CJI had once said that in certain matters silence is not an option. I believe this is one such case. The CJI cannot afford to remain quiet. The matter is too serious to be **brushed under the carpet**. It is a **perennial** issue and will surface again and again. Therefore, the CJI must speak out and do so loudly and clearly.

• Question No. 1

Why did the other judges possibly revolt against the CJI according to the passage?

Options :

1. They feel the CJI is quite dominating.
2. There is no word from him on the ongoing topic.

3. The Chief Justice of India (CJI) and the chief justices of high courts enjoy absolute power in the matter of assigning cases to colleague judges. The nature of the power vested in them is susceptible to misuse and this precisely is what the four judges are insinuating against the CJI.
4. The CJI has seemingly deviated from this practice and as it has raised dust and storm, it falls upon the CJI to clear the air as to why Justice Mishra was preferred over his seniors.
5. None of these.

Answer : The Chief Justice of India (CJI) and the chief justices of high courts enjoy absolute power in the matter of assigning cases to colleague judges. The nature of the power vested in them is susceptible to misuse and this precisely is what the four judges are insinuating against the CJI.

Therefore, the CJI must speak out and do so loudly and clearly.

• Question No. 2

Why were all the judges who revolted, were upset with the CJI?

Options :

1. The CJI has preferred to maintain absolute silence.
2. They were upset by the assignment of Judge B M Loya's matter to Justice Arun Mishra, a junior judge.
3. The mere fact that Justice Mishra is a junior judge in the hierarchy of judges by itself is not a good enough ground to accuse the CJI of wrongdoing.
4. The matter is too serious to be brushed under the carpet.
5. None of the above.

Answer : They were upset by the assignment of Judge B M Loya's matter to Justice Arun Mishra, a junior judge.

Therefore, the CJI must speak out and do so loudly and clearly.

• Question No. 3

Which of the following statements is definitely true according to the passage?

Options :

1. The CJI has been given certain powers and he is fully allowed to use them in whichever way he wants.
2. The CJI should not be maintaining silence usually on such topics.
3. The assigning of powers has to be looked into very seriously.
4. A junior judge is as much a constitutional functionary as his senior colleague. Both discharge the same judicial functions.
5. The cases relating to public importance are not compulsorily given to the high-profile judges.

Answer : A junior judge is as much a constitutional functionary as his senior colleague. Both discharge the same judicial functions.

Read the following passage carefully and answer the questions given below them. Certain words/phrases have been printed in bold to help you locate them while answering some of the questions.

The Economic Survey for 2017-18 paints the picture of an economy that gives reason for both optimism and caution. It projects that GDP growth could accelerate to 7-7.5% in 2018-19, from 6.75% in the current fiscal, reinstating India

as the world's fastest-growing major economy. According to Chief Economic Adviser Arvind Subramanian, the key factors contributing to the positive **prognosis** are the reform measures: the July 1 implementation of the Goods and Services Tax and the steps taken to address the twin balance sheet problem in the banking sector. The latter includes the push to use the Insolvency and Bankruptcy Code for debt resolution and the initiative to recapitalize public sector banks. Adding to these domestic enablers are the fair winds of a global recovery that have already lent a lift to overseas demand for India's goods and services. But capitalizing on these favorable factors while remaining vigilant to other macroeconomic threats, including a key risk in the form of persistently high oil prices, would require exemplary economic stewardship. Among the concerns the CEA has flagged is one relating to what the Survey calls "a classic emerging market 'sudden stall' induced by sharp corrections to elevated stock prices." With Indian stock indices continuing to soar to new highs on an almost daily basis, the Survey warns against "sanguineness about its sustainability". A correction in the stock market, besides triggering capital outflows, could force policymakers to raise interest rates, choking off the nascent recovery. On the fiscal front, the survey contends that the Centre needs to reappraise its priorities. The **onus**, it argues, has to be squarely placed on establishing and maintaining policy credibility. To this end, it argues against "setting overly ambitious targets for consolidation, especially in a pre-election year" that are based on optimistic and unrealistic assumptions. Instead, it recommends a "modest consolidation" that would signal a return to the path of calibrated deficit reductions. In doing so, it appears that the Survey is signaling that the government may have to retain the elbow room to stabilize the GST, complete the recapitalization exercise and, most crucially, support agriculture. Devoting an entire chapter to 'Climate, Climate Change and Agriculture', the CEA and his team have stressed on the dangers climate change poses to the outlook for farm growth. With the potential to reduce annual agricultural incomes — by as much as 20-25% for unirrigated areas — the Survey calls for a range of mitigation measures including extensive provision of efficient irrigation technologies and a wholesale review of the cereal-centric approach to policy. Citing job creation and education as key priorities, the Survey sets out a plan for rapid economic expansion by recommending that policymakers keep their sights trained on strengthening "the only two truly sustainable engines — private investment and exports."

- Question No. 21

"According to the survey the consolidation targets must be based on optimistic assumptions."

This statement is

Options :

1. Definitely True

2. Definitely False
3. Probably True
4. Probably False
5. Cannot be determined

Answer : Definitely False

Answer : 4)

Direction:

Each of the questions below consists of a question and three statements numbered I, II and III given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read all the three statements and

Give answer

- Question No. 54

In a certain code language, 'made my work good' is written as 'ta la sa pa'. How is 'good' written in the code language?

I. 'his work is good' is written as 'pa za la ma'.

II. 'job made his notice' is written as 'sa fa ma na'. 'management good work' is written as 'pa ja la'.

III. 'management made good work' is written as 'pa ja sa la'.

Options :

1. 1)
2. 2)

3. 3)

4. 4)

5. 5)

Answer : 5)

Direction:

(Q. 22 - 26): Each of the questions below consists of a question and three statements numbered I, II and III given below it. You have to decide whether the data provided in the statements are sufficient to answer the question.

Read all the three statements and

Give answer

• Question No. 55

All girls and boys of a class are standing in a row. What is the position of Siddharth among boys from the front of the row?

I. John is 13th from the front. Snow who is two positions ahead (when counted from front) of Jon is 16th from behind.

II. Mormont who is eighteenth from the front is standing four places away from Siddharth.

III. Siddharth is two positions behind Tim whose position is equal to the average of both Jon's and Snow's position from the front.

Options :

1. 1)

2. 2)

3. 3)

4. 4)

5. 5)

Answer : 1)

Direction:

Study the following information carefully and answer the following questions given below:

Ten persons P, Q, R, S, T, U, V, W, X and Y like different deodorants, viz. Engage, Nike, Adidas, Axe and Dove, Wattagirl, Rexona, Avon, Fa and Layer shot. All of them eat a different fast foods, viz. Pizza, Momos, Macroni, Dosa, Sambhar, Paneer, Tikki, Sandwich, Dokhla and Burger but not necessarily in the same order.

(i) The one who likes Layer shot eats Burger.

(ii) X does not like Nike or Layer shot.

(iii) S likes Axe and eats Momos.

(iv) U eats Dosa and likes Wattagirl.

(v) W eats Sandwich.

(vi) The one who eats Pizza likes Adidas.

(vii) P eats Paneer and X eats Dokhla.

(viii) V likes Rexona.

(ix) Neither P nor Q likes Fa.

(x) P does not like Engage.

(xi) R likes Adidas and W likes Avon.

(xii) T likes Dove and eats Macroni.

(xiii) Q eats Sambhar.

• Question No. 56

Who among the following eats Burger?

Options :

1. X
2. Y
3. U
4. V

5. None of these

Answer : Y

Direction:

Study the following information carefully and answer the following questions given below:

Ten persons P, Q, R, S, T, U, V, W, X and Y like different deodorants, viz. Engage, Nike, Adidas, Axe and Dove, Wattagirl, Rexona, Avon, Fa and Layer shot. All of them eat a different fast foods, viz. Pizza, Momos, Macroni, Dosa, Sambhar, Paneer, Tikki, Sandwich, Dokhla and Burger but not necessarily in the same order.

(i) The one who likes Layer shot eats Burger.

(ii) X does not like Nike or Layer shot.

(iii) S likes Axe and eats Momos.

(iv) U eats Dosa and likes Wattagirl.

(v) W eats Sandwich.

(vi) The one who eats Pizza likes Adidas.

(vii) P eats Paneer and X eats Dokhla.

(viii) V likes Rexona.

(ix) Neither P nor Q likes Fa.

(x) P does not like Engage.

(xi) R likes Adidas and W likes Avon.

(xii) T likes Dove and eats Macroni.

(xiii) Q eats Sambhar.

• Question No. 57

Which of the following combination is true?

Options :

1. P – Nike Pizza
2. S – Avon - Momos
3. U – Wattagirl - Dosa
4. X – Adidas - Pizza
5. None of these

Answer : U – Wattagirl - Dosa

Direction:

Study the following information carefully and answer the following questions given below:

Ten persons P, Q, R, S, T, U, V, W, X and Y like different deodorants, viz. Engage, Nike, Adidas, Axe and Dove, Wattagirl, Rexona, Avon, Fa and Layer shot. All of them eat a different fast foods, viz. Pizza, Momos, Macroni, Dosa, Sambhar, Paneer, Tikki, Sandwich, Dokhla and Burger but not necessarily in the same order.

(i) The one who likes Layer shot eats Burger.

(iii) S likes Axe and eats Momos.

(iv) U eats Dosa and likes Wattagirl.

(v) W eats Sandwich.

(vi) The one who eats Pizza likes Adidas.

(vii) P eats Paneer and X eats Dokhla.

(viii) V likes Rexona.

(ix) Neither P nor Q likes Fa.

(x) P does not like Engage.

(xi) R likes Adidas and W likes Avon.

(xii) T likes Dove and eats Macroni.

(xiii) Q eats Sambhar.

• Question No. 60

Which of the following combinations with regard to P is true?

Options :

1. Avon - Momos
2. Engage - Sambhar
3. Nike - Paneer
4. Dove - Macroni
5. None of these

Answer : Nike - Paneer

Direction:

Study the following information carefully and answer the given questions:

• Question No. 61

In the given code language what does the code 'kt ' stand for?

Options :

1. centre
2. such

- 3. in
- 4. can't be determined
- 5. None of these

Answer : such

Direction:

Study the following information carefully and answer the given questions:

- Question No. 62

What is the code for 'table' in the given code language?

Options :

- 1. In
- 2. sa
- 3. ku
- 4. either 1 or 2
- 5. None of these

Answer : either 1 or 2

Direction:

Study the following information carefully and answer the given questions:

- Question No. 63

What is the code for 'are' in the given code language?

Options :

- 1. ku
- 2. pa
- 3. zu
- 4. na
- 5. None of these

Answer : zu

Direction:

Study the following information carefully and answer the given questions:

- Question No. 64

'In zu ku sa' is the code for which of the following?

Options :

1. sitting people are table
2. people rectangular are table
3. way facing in such
4. can't be determined
5. None of these

Answer : people rectangular are table

Direction:

Study the following information carefully and answer the given questions:

- Question No. 65

What is the code for 'rectangular' in the given code language?

Options :

1. In
2. sa
3. ku
4. either 1 or 2
5. None of these

Answer : either 1 or 2

Direction:

What should come in place of the question mark (?) in the following number series?

- Question No. 66

26 63 124 215 342 511 ?

Options :

1. 610
2. 728
3. 712
4. 613
5. 715

Answer : 728

Direction:

What should come in place of the question mark (?) in the following number series?

- Question No. 67

840 400 180 ? 15 -12.5

Options :

1. 12
2. 15
3. 70
4. 80
5. 90

Answer : 70

Direction:

What should come in place of the question mark (?) in the following number series?

- Question No. 68

8 9 22 75 316 ?

Options :

1. 1600
2. 1602
3. 1603
4. 1605
5. None of these

Answer : 1605

Direction:

Directions (141-145): What should come in place of the question mark (?) in the following number series?

- Question No. 69

3 5 15 75 1125 ?

Options :

1. 84357
2. 84375
3. 84735
4. 83745
5. None of these

Answer : 84375

Direction:

What will come in place of question marks '?' in the following questions? (You do not have to calculate the exact value?)

- Question No. 70

15.001% of 799.99 -  3/11% of 1099.99 + 111.002 = ?

Options :

1. 228

2. 256

3. 265

4. 278

5. 290

Answer : 228

Direction:

What value should come in place of the question-mark(?) in the following questions:

- Question No. 71

$$[(15)^3 \times (8)^2] \div (90 \times 6) = ?^2$$

Options :

1. 35

2. 20

3. 32

4. 28

5. None of these

Answer : 20

Direction:

What value should come in place of the question-mark(?) in the following questions:

- Question No. 72

$$\square 857375 + \square 91125 = ? + \sqrt{6889}$$

Options :

1. 87

2. 62

3. 57

4. 92

5. None of these

Answer : 57

Direction:

What value should come in place of the question-mark(?) in the following questions:

- Question No. 73

$150\% \text{ of } 850 \div 25 - 25 = ?\% \text{ of } (39312 \div 1512)$

Options :

1. 100
2. 92
3. 114
4. 96
5. None of these

Answer : 100

Direction:

What value should come in place of the question-mark(?) in the following questions:

- Question No. 74

$192.251 + 326.233 + 125.021 + 19.273 = ?$

Options :

1. 956.798
2. 824.678
3. 672.188
4. 662.778
5. None of these

Answer : 662.778

Direction:

What value should come in place of the question-mark(?) in the following questions:

- Question No. 75

$$((67)^{32} \times (67)^{-18} / ? = (67) \square$$

Options :

1. $(67) \square$
2. $(67) \square$
3. $(67)^3$
4. $(67) \square$
5. None of these

Answer : $(67) \square$

Direction:

What value should come in place of the question-mark(?) in the following questions:

- Question No. 76

$$82 \times 3450 \div 30 + 824 = ? - 920$$

Options :

1. 23890
2. 13256
3. 12168
4. 11174
5. None of these

Answer : 11174

Direction:

What value should come in place of the question-mark(?) in the following questions:

- Question No. 77

$$\sqrt{(?)}^2 = \sqrt{7396} - \sqrt{6889}$$

Options :

1. 3
2. 9
3. 81
4. 27
5. None of these

Answer : 3

Direction:

What value should come in place of the question-mark(?) in the following questions:

- Question No. 78

$$4/5 + 6/7 \times 14/42 \div 24/35 = ?$$

Options :

1. $1\frac{17}{55}$
2. $1\frac{19}{32}$
3. $1\frac{13}{60}$
4. $1\frac{11}{45}$
5. None of these

Answer : $1\frac{13}{60}$

Direction:

What value should come in place of the question-mark(?) in the following questions:

- Question No. 79

$$(50/7)\% \text{ of } 3500 + (20/3)\% \text{ of } 6000 = ? + 552.5$$

Options :

1. 91.4

- 2. 82.9
- 3. 97.5
- 4. 68.4
- 5. None of these

Answer : 97.5

Direction:

What value should come in place of the question-mark(?) in the following questions:

- Question No. 80

$$(43)^2 - (28)^2 + (32)^2 = ?\% \text{ of } 2500$$

Options :

- 1. 83.56
- 2. 58.98
- 3. 72.45
- 4. 91.66
- 5. None of these

Answer : 83.56

Direction:

In each of the following questions, read the following questions, read the given statements and compare given two quantities on its basis:

- Question No. 81

10 women and 12 men complete a certain piece of work in 30 days, if each women takes thrice the time taken by a man to finish the work.

Quantity I – How many days will 17 men and 33 women can take to finish the same work?

Quantity II – How many days will 26 men and 12 women can take to finish the same work?

Options :

1. Quantity I > Quantity II
2. Quantity I < Quantity II
3. Quantity I \geq Quantity II
4. Quantity I \leq Quantity II
5. Quantity I = Quantity II

Answer : Quantity I \geq Quantity II

Direction:

In each of the following questions, read the following questions, read the given statements and compare given two quantities on its basis:

- Question No. 82

Quantity I – $49x^3y^3$

Quantity II – $25x^4y^4$

If $x > 0$ and $y < 0$

Options :

1. Quantity I > Quantity II
2. Quantity I < Quantity II
3. Quantity I \geq Quantity II
4. Quantity I \leq Quantity II
5. Quantity I = Quantity II

Answer : Quantity I \leq Quantity II

Direction:

Study the following information carefully and answer the Questions given below:

- Question No. 83

Quantity I. The perimeter of a triangle whose sides are 17 cm, 13 cm and 23 cm.

Quantity II. The perimeter of a square whose diagonal is 19 cm.

Options :

1. Quantity I > Quantity II
2. Quantity I \geq Quantity II
3. Quantity I < Quantity II
4. Quantity I \leq Quantity II
5. Quantity I = Quantity II or No relation can be established

Answer : Quantity I < Quantity II

Direction:

Study the following information carefully and answer the Questions given below:

- Question No. 84

What is the rate percent per annum?

Quantity I. Sum of money becomes four times in five years at simple interest.

Quantity II. The difference between compound interest and simple interest on a sum of Rs. 15,000 at the end of two years is Rs. 9,600.

Options :

1. Quantity I \geq Quantity II
2. Quantity I < Quantity II
3. Quantity I \leq Quantity II
4. Quantity I > Quantity II
5. Quantity I = Quantity II or No relation can be established

Answer : Quantity I < Quantity II

Direction:

Study the following information carefully and answer the Questions given below:

- Question No. 85

Quantity I. The volume of a cube whose surface area is 216 cm^2

Quantity II. The volume of a cuboid whose sides are 8 cm, 9 cm and 13 cm.

Options :

1. Quantity I < Quantity II
2. Quantity I > Quantity II
3. Quantity I \leq Quantity II
4. Quantity I \geq Quantity II
5. Quantity I = Quantity II or No relation can be established

Answer : Quantity I < Quantity II

Direction:

In each of the following questions, a question is followed by two statement. Read all the statements and find that which statements are required to answer the question and answer accordingly.

- Question No. 86

What is the speed of man in still water?

Statement I : The speed of man in still water is twice the speed of the stream.

Statement II : In 30 minutes, the man can swim thrice as far with the stream as he can against the stream.

Options :

1. If the data in statement I alone is sufficient to answer the question.
2. If the data in statement II alone is sufficient to answer the question.
3. If the data either in statement I alone or statement II alone are sufficient to answer the question.
4. If the data given in both I and II together are not sufficient to answer the question.
5. If the data in both the statements I and II together are necessary to answer the question.

Answer : If the data given in both I and II together are not sufficient to answer the question.

Direction:

In each of the following questions, a question is followed by two statement. Read all the statements and find that which statements are required to answer the question and answer accordingly.

• Question No. 87

What was the profit earned by selling an article?

Statement I : The article was sold for Rs 850 after getting a discount of 15% on the labelled price.

Statement II : A profit of 4% is made on the labelled price in buying that article.

Options :

1. If the data in statement I alone is sufficient to answer the question.
2. If the data in statement II alone is sufficient to answer the question.
3. If the data either in statement I alone or statement II alone are sufficient to answer the question.
4. If the data given in both I and II together are not sufficient to answer the question.
5. If the data in both the statements I and II together are necessary to answer the question.

Answer : If the data in both the statements I and II together are necessary to answer the question.

Direction:

In each of the following questions, a question is followed by two statement. Read all the statements and find that which statements are required to answer the question and answer accordingly.

• Question No. 88

A man invested a sum of Rs 25,000. He invested some part at 5 % p.a. and remaining at 5.5% p.a. How much money did he invest at 5 % p.a.?

Statement I : The total interest amount paid after 1 year was Rs 1300

Statement II : The interest on one sum was twice that on the other.

Options :

1. If the data in statement I alone is sufficient to answer the question.
2. If the data in statement II alone is sufficient to answer the question.

3. If the data either in statement I alone or statement II alone are sufficient to answer the question.
4. If the data given in both I and II together are not sufficient to answer the question.
5. If the data in both the statements I and II together are necessary to answer the question.

Answer : If the data either in statement I alone or statement II alone are sufficient to answer the question.

Direction:

In each of the following questions, a question is followed by two statement. Read all the statements and find that which statements are required to answer the question and answer accordingly.

• Question No. 89

There are 7 people in a group. Average age of the group decreases by 5 when two more people join the group. Find the average age of the new group.

Statement I: Sum of the ages of the two people who joined later is 25 yrs.

Statement II: Total of the ages of people originally was 245 yrs.

Options :

1. If the data in statement I alone is sufficient to answer the question.
2. If the data in statement II alone is sufficient to answer the question.
3. If the data either in statement I alone or statement II alone are sufficient to answer the question.
4. If the data given in both I and II together are not sufficient to answer the question.
5. If the data in both the statements I and II together are necessary to answer the question.

Answer : If the data either in statement I alone or statement II alone are sufficient to answer the question.

Direction:

In each of the following questions, a question is followed by two statement. Read all the statements and find that which statements are required to answer the question and answer accordingly.

• Question No. 90

What is the area of the circular field?

Statement I: The area of the largest square that can be inscribed in the given circular field is 6400 sq. cm.

Statement II : The area of the smallest square in which the given circular field can be inscribed is 4900 sq. cm.

Options :

1. If the data in statement I alone is sufficient to answer the question.
2. If the data in statement II alone is sufficient to answer the question.
3. If the data either in statement I alone or statement II alone are sufficient to answer the question.
4. If the data given in both I and II together are not sufficient to answer the question.
5. If the data in both the statements I and II together are necessary to answer the question.

Answer : If the data either in statement I alone or statement II alone are sufficient to answer the question.

Direction:

Refer to the pie chart and answer the given questions.

- Question No. 91

What is the average number of books distributed to shopkeepers Q, R and T?

Options :

1. 1134
2. 1314
3. 1124
4. 1142
5. 1424

Answer : 1134

Direction:

Refer to the pie chart and answer the given questions.

- Question No. 92

What is the central angle corresponding to the number of the books distributed to shopkeeper S?

Options :

1. 76.4%
2. 68.4%
3. 64.8%
4. 74.6%
5. None of these

Answer : 64.8%

Direction:

Refer to the pie chart and answer the given questions.

- Question No. 93

What is the difference between the total number of books distributed to shopkeepers Q and R together and that distributed to shopkeepers P and T together?

Options :

1. 354
2. 364
3. 344
4. 324
5. 342

Answer : 324

Direction:

Refer to the pie chart and answer the given questions.

- Question No. 94

In October 2017, if the number of books in the publications house increased by 15% over the previous month and the additional number of books distributed to shopkeepers P and S together then find out total numbers of books distributed to P and S together ?

Options :

1. 2680
2. 2808
3. 1680
4. 2480
5. 2088

Answer : 2808

Direction:

Refer to the pie chart and answer the given questions.

• Question No. 95

In October 2017, if the number of books distributed to shopkeeper R is increased by 25% and that to shopkeeper T decreased by 20% over the previous month then find the total number of books distributed by R and T together in October 2017?

Options :

1. 2025
2. 2205
3. 2225
4. 2250
5. 2500

Answer : 2025

• Question No. 96

A product costs a company Rs 120 to manufacture and it sold the product to a dealer for Rs 140, who is turn sold it to a shopkeeper for Rs 170, who sold to a customer for Rs 204. What is the percentage for the dealers and who made the highest profit on selling the product?

Options :

1. 16 $\frac{2}{3}$ % dealer
2. 16 $\frac{2}{3}$ % company
3. 21 $\frac{3}{7}$ % dealer
4. 21 $\frac{3}{7}$ % shopkeeper
5. None of these

Answer : 21 $\frac{3}{7}$ % dealer

• Question No. 97

A train covers a distance between stations Dehradun to Rudrapur in 90minutes. If the speed is reduced by 10 km/hr, it will cover the same distance in 96 minutes. What is the distance between the two stations (in km)? Also find the speed of train?

Options :

1. 120km/hr, 240km
2. 150km/hr, 200km
3. 160 km/hr, 240 km
4. 100km/hr, 220km
5. None of these

Answer : 160 km/hr, 240 km

• Question No. 98

Rs 2000 are invested at 5% per annum simple interest. If the interest is added to the principal after every 15 years, the amount will become Rs 4,000 after

Options :

1. 20years
2. 16($\frac{2}{3}$)years
3. 25years
4. 17($\frac{6}{7}$)years
5. 12($\frac{1}{2}$)years

Answer : 17(6/7)years

• Question No. 99

A is twice efficient as B and B can do a piece of work in 40 days. B started the work and after a few days A joined him. They completed the work in 32 days. From the starting, for how many days they worked together?

Options :

1. 6 days
2. 8 days
3. 4 days
4. 10 days
5. 12 days

Answer : 4 days

• Question No. 100

A rectangular lawn is 60 meters X 50 meters and has two roads, each 2 meters wide, in the middle of it, one parallel to its length and the other parallel to its breadth, Find the cost of gravelling the road at the rate of Rs. 3.5 per square meter.

Options :

1. Rs. 550
2. Rs. 820
3. Rs. 706
4. Rs. 756
5. None of these

Answer : Rs. 756
