

Direction:

Read the following information carefully and answer the given questions:

The Bar graph shows the percentage wise distribution of number of selling of different Laptops for the year 2019.

Total number of Laptops sold in 2019 = 8500

• Question No. 1

What is the total of number of Vivo, HP and Dell Laptops sold together in the year 2019?

Options :

1. 6400
2. 7200
3. 8500
4. 5500
5. none of these

Answer : 8500

Direction:

Read the following information carefully and answer the given questions:

The Bar graph shows the percentage wise distribution of number of selling of different Laptops for the year 2019.

Total number of Laptops sold in 2019 = 8500

• Question No. 2

What is the average number of Laptops sold in the year 2019?

Options :

1. 3620
2. 2652
3. 2548
4. 3163
5. none of these

Answer : 2652

Direction:

Read the following information carefully and answer the given questions:

The Bar graph shows the percentage wise distribution of number of selling of different Laptops for the year 2019.

Total number of Laptops sold in 2019 = 8500

• Question No. 3

Find the ratio between the number of Lenovo Laptops sold and the number of Asus Laptops sold.

Options :

1. 183:43
2. 162:51
3. 11:15
4. 9:5
5. none of these

Answer : 9:5

Direction:

Read the following information carefully and answer the given questions:

The Bar graph shows the percentage wise distribution of number of selling of different Laptops for the year 2019.

Total number of Laptops sold in 2019 = 8500

• Question No. 4

Number of Vivo Laptops sold is how much percent less than the number of Dell Laptops sold?

Options :

1. 33.33%
2. 23.15%
3. 16.66%
4. 35.12%
5. None of these

Answer : 33.33%

Direction:

Read the following information carefully and answer the given questions:

The Bar graph shows the percentage wise distribution of number of selling of different Laptops for the year 2019.

Total number of Laptops sold in 2019 = 8500

• Question No. 5

Find the difference between the average number of Lenovo and HP Laptops sold together and the number of Asus Laptops sold?

Options :

1. 1225
2. 1234
3. 1105
4. 1063

5. None of these

Answer : 1105

Direction:

What approximate value will come in place of the question mark (?) in the following question?

(Note: You are not expected to calculate the exact value.)

• Question No. 6

$$45.21\% \text{ of } 5419.99 + 55.02\% \text{ of } 5039.98 - 4823.99 = ?$$

Options :

1. 632
2. 387
3. 349
4. 412
5. 667

Answer : 387

Direction:

What approximate value will come in place of the question mark (?) in the following question?

(Note: You are not expected to calculate the exact value.)

• Question No. 7

$$66.98 \times 155.33 + 23.12 \times 14.9 - 135.021 \times 27.9 = ?$$

Options :

1. 8510
2. 7494
3. 6950
4. 4274
5. 4590

Answer : 6950

Direction:

What approximate value will come in place of the question mark (?) in the following question?

(Note: You are not expected to calculate the exact value.)

- Question No. 8

$$(27.9)^3 + (33.021)^2 - (15.11)^3 - (43.98)^2 = ?$$

Options :

1. 8056
2. 13749
3. 14376
4. 17730
5. 27979

Answer : 17730

Direction:

What approximate value will come in place of the question mark (?) in the following question?

(Note: You are not expected to calculate the exact value.)

- Question No. 9

$$491.9 + 2619.98 - 585.21 = 710.011 + ?$$

Options :

1. 1817
2. 1847
3. 1913
4. 2051
5. 1609

Answer : 1817

Direction:

What approximate value will come in place of the question mark (?) in the following question?

(Note: You are not expected to calculate the exact value.)

- Question No. 10

96.31% of $(4.9/8.012)$ of ? = 113.9% of 2349.9

Options :

1. 4465
2. 4370
3. 5200
4. 3740
5. 3840

Answer : 4465

Direction:

In each of these questions a number series is given. In each series only one number is wrong. Find out the wrong number.

- Question No. 11

60 61 57 65 50 75 39

Options :

1. 65
2. 75
3. 50
4. 39
5. 61

Answer : 65

Direction:

In each of these questions a number series is given. In each series only one number is wrong. Find out the wrong number.

- Question No. 12

6 3.5 5.5 8.25 18.5 48.75 149.25

Options :

1. 3.5
2. 8.25
3. 5.5
4. 48.75
5. 149.25

Answer : 5.5

Direction:

In each of these questions a number series is given. In each series only one number is wrong. Find out the wrong number.

- Question No. 13

94, 115, 138, 163, 190, 218

Options :

1. 94
2. 115
3. 218
4. 138
5. 163

Answer : 218

Direction:

In each of these questions a number series is given. In each series only one number is wrong. Find out the wrong number.

- Question No. 14

80, 88, 101, 122, 150, 185

Options :

1. 88
2. 185
3. 150
4. 101
5. 122

Answer : 88

Direction:

In each of the following questions, one term in the number series is wrong. Find out the wrong term.

- Question No. 15

19 20 24 33 50 74

Options :

1. 74
2. 33
3. 24
4. 50
5. None of these

Answer : 50

- Question No. 16

There is a rectangular paper, whose length and breadth are in the ratio 7:8, respectively and it has a perimeter of 60 metres. If a triangular piece with height of 11 metres and base of 10 metres is cut out from the given paper then find the area (in m^2) of the remaining paper.

Options :

1. 159
2. 149
3. 139

- 4. 169
- 5. None of these

Answer : 169

• Question No. 17

In a business, A invested Rs. 1800 more than that by B. After 10 months, A left the business. If at the end of the year, profit earned by B is equal to the profit earned by A, then find the amount invested by A in the business.

Options :

- 1. Rs.10800
- 2. Rs.10300
- 3. Rs.10240
- 4. Rs.10400
- 5. None of these

Answer : Rs.10800

• Question No. 18

The speed of a car is 25% more than that of a bike. Both of them start from a same point. After travelling for 5 hours, the speed of the bike is increased by 40%. After 7 hours from starting, the car was 38 km ahead of the bike. Find the initial speed of the bike.

Options :

- 1. 40 km/hr
- 2. 42 km/hr
- 3. 43 km/hr
- 4. 47 km/hr
- 5. None of these

Answer : 40 km/hr

Direction:

Answer the questions based on the information given below.

There are three boats X, Y and Z. The speed of boat Z in still water is equal to the downstream speed of boat X. The speed of boat Y in still water is equal to the upstream speed of boat Z. Boat Z takes 14 hours to cover 224 km downstream. If the speed of boat Y in still water would have been twice its initial speed in still water, the time taken by it to cover 174 km upstream would have been 14.5 hours.

- Question No. 19

If boat X travels with 50% more speed than its initial speed in another river 'R' then it takes 15.5 hours to cover 310 km downstream. Boat Z decreased its speed by $x\%$ and takes 38 hours to cover 646 km downstream in river 'R'. If the speed of boat Y in still water is increased by $x\%$, then find the time taken by boat Y to cover 225 km downstream in river 'R'.

Options :

1. 10.5 hours
2. 9 hours
3. 15 hours
4. 12.5 hours
5. None of these

Answer : 12.5 hours

- Question No. 20

Pipe 'A' can fill a tank in 40 hours whereas leak 'A' can empty it in 50 hours. If they both operate along with pipe 'B', then the given tank gets filled in 20 hours. How much time is needed to fill the given tank if pipe 'B' and leak 'A' work together?

Options :

1. 40 hours
2. 60 hours
3. 75 hours
4. 30 hours
5. 84 hours

Answer : 40 hours

Direction:

Study the following information carefully and answer the given questions:

Seven students J, K, L, M, N, P and O like different fruits i.e. Mango, Cherry, Blueberry, Pear, Banana, Pineapple and Orange. They attend classes on different days of week starting from Sunday to Saturday.

J attends class before O and after L who doesn't like Pear. N attends class on Friday. Only one person attends class between the one who likes Pineapple and the one who likes Orange. K likes Blueberry. More than one person attends the class between the one who likes Pear and the one who likes Banana. Two person attends the class between the one who likes Cherry and M. P attends class on Sunday. Neither the one who likes Pear nor the one who likes Mango attends the class on Saturday. Two persons attend class between K and the one who likes Pineapple. The one who likes Cherry attends the class before the one who likes Blueberry. Only one person attends class between P and K.

- Question No. 21

How many persons attend the class between the one who likes Pear and K?

Options :

1. One
2. Two
3. Three
4. More than three
5. None of these

Answer : One

Direction:

Study the following information carefully and answer the given questions:

Seven students J, K, L, M, N, P and O like different fruits i.e. Mango, Cherry, Blueberry, Pear, Banana, Pineapple and Orange. They attend classes on different days of week starting from Sunday to Saturday.

J attends class before O and after L who doesn't like Pear. N attends class on Friday. Only one person attends class between the one who likes Pineapple and the one who likes Orange. K likes Blueberry. More than one person

attends the class between the one who likes Pear and the one who likes Banana. Two person attends the class between the one who likes Cherry and M. P attends class on Sunday. Neither the one who likes Pear nor the one who likes Mango attends the class on Saturday. Two persons attends class between K and the one who likes Pineapple. The one who likes Cherry attends the class before the one who likes Blueberry. Only one person attends class between P and K.

- Question No. 22

Who likes Pineapple?

Options :

1. J
2. K
3. L
4. M
5. None of these

Answer : None of these

Direction:

Study the following information carefully and answer the given questions:

The one who likes Cherry attends the class before the one who likes Blueberry. Only one person attends class between P and K.

- Question No. 25

If N is related to Cherry and P is related to Banana, then in the similar way, L is related to?

Options :

1. Blueberry
2. Pear
3. Pineapple
4. Mango
5. None of these

Answer : Pineapple

Direction:

In these questions, a relationship between different elements is shown in the statements. The statements are followed by two conclusions.

Give answer:

- Question No. 26

Statements: $Q \geq B > G = F \geq J$; $W \leq B = N$

Conclusions:

I. $N > J$

II. $Q > L$

Options :

1. If only conclusion I follows.
2. If only conclusion II follows
3. If either conclusion I or II follows
4. If neither conclusion I nor II follows
5. If both conclusion I and II follows

Answer : If only conclusion I follows.

Direction:

In these questions, a relationship between different elements is shown in the statements. The statements are followed by two conclusions.

Give answer:

- Question No. 27

Statements: R

Conclusions:

I. R

II. $T \leq L$

Options :

1. If only conclusion I follows.
2. If only conclusion II follows
3. If either conclusion I or II follows
4. If neither conclusion I nor II follows
5. If both conclusion I and II follows

Answer : If both conclusion I and II follows

Direction:

In these questions, a relationship between different elements is shown in the statements. The statements are followed by two conclusions.

Give answer:

- Question No. 28

Statements: $U = T \geq J$ $X \leq P = S$.

Conclusions:

I. $J \leq P$

II. $S > T$

Options :

1. If only conclusion I follows.
2. If only conclusion II follows
3. If either conclusion I or II follows
4. If neither conclusion I nor II follows
5. If both conclusion I and II follows

Answer : If neither conclusion I nor II follows

Direction:

Study the following information carefully and answer the given questions. In a certain code language.

'According to sources condition' is coded as 'lok rfc qxc lka'

'To Stable given sources' is coded as 'qxc lka fgb ujs'

'According sources best Stable' is coded as 'pow fgb qxc rfc'

'Medical condition sources care' is coded as 'hib lok ikd qxc'

- Question No. 29

Which of the following is the code for 'sources'?

Options :

1. lok
2. fgb
3. rfc
4. qxc
5. None of these

Answer : qxc

Direction:

Study the following information carefully and answer the given questions. In a certain code language.

'According to sources condition' is coded as 'lok rfc qxc lka'

'To Stable given sources' is coded as 'qxc lka fgb ujs'

'According sources best Stable' is coded as 'pow fgb qxc rfc'

'Medical condition sources care' is coded as 'hib lok ikd qxc'

- Question No. 30

Which of the following word is coded as 'lka'?

Options :

1. Best
2. According
3. to
4. sources
5. None of these

Answer : to

Direction:

In each of the questions below are given some statements followed by some Conclusions. You have to take the given statements to be true even, if they seem to be at variance from commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

• Question No. 31

Statements:

Only poles are wires

Only few poles are ornaments

All ornaments are copper

Conclusion:

I. All poles can never be copper

II. Some ornaments can be wires

Options :

1. If only conclusion I follows.
2. If only conclusion II follows.
3. If either conclusion I or II follows.
4. If neither conclusion I nor II follows.
5. If both conclusions I and II follow.

Answer : If only conclusion I follows.

Direction:

In each of the questions below are given some statements followed by some Conclusions. You have to take the given statements to be true even, if they seem to be at variance from commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

• Question No. 32

Statements:

Some designations are descriptions

Some descriptions are securities

No security is a position

Conclusion:

I. Only descriptions is designations

II. No designation is a description

Options :

1. If only conclusion I follows.
2. If only conclusion II follows.
3. If either conclusion I or II follows.
4. If neither conclusion I nor II follows.
5. If both conclusions I and II follow.

Answer : If neither conclusion I nor II follows.

Direction:

In each of the questions below are given some statements followed by some Conclusions. You have to take the given statements to be true even, if they seem to be at variance from commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

- Question No. 33

Statements:

All microscopes are telescopes

No telescope is a screw

All screws are rockets

Conclusions:

- I. Some telescope are not rockets
- II. Some rockets can never be microscope

Options :

1. If only conclusion I follows.

2. If only conclusion II follows.
3. If either conclusion I or II follows.
4. If neither conclusion I nor II follows.
5. If both conclusions I and II follow.

Answer : If only conclusion II follows.

Direction:

In each of the questions below is given a statement followed by two assumptions numbered I and II. An assumption is something supposed or taken for granted. You have to consider the statement and the following assumptions and decide which of the assumptions is implicit in the statement.

Give your answer as

- 1) if only assumption I is implicit
- 2) if only assumption II is implicit
- 3) if either I or II is implicit
- 4) if neither I nor II is implicit
- 5) if both I and II are implicit

- Question No. 34

Statement: "People switch to CNG as price of petrol again touched a new high as it crossed Rs 80 mark"-
Newspaper headlines

Assumptions:

- I) CNG is cheaper than petrol.
- II) Earlier too there was a rise in prices of petrol.

Options :

1. 1
2. 2
3. 3
4. 4
5. 5

Answer : 5

Direction:

Give your answer as

- 1) if only assumption I is implicit
- 2) if only assumption II is implicit
- 3) if either I or II is implicit
- 4) if neither I nor II is implicit
- 5) if both I and II are implicit

• Question No. 35

Statement : American Airline will send Furlough (temporary layoff) notices to its 25000 employees.

Assumptions:

- I) American Airlines don't need those 25000 employees as off now.
- II) American airline will recover its losses by laying off its employees temporarily.

Options :

1. 1
2. 2
3. 3
4. 4
5. 5

Answer : 1

Direction:

Study the given information carefully and answer the questions that follow –

Six persons S, T, U, V, W, X are born in six different years 1947, 1959, 1964, 1972, 1995, 2007. All of them like different pet animals i.e. Rats, Cow, Cats, Horse, Dog and Rabbits.

Note- All the calculations of the ages are to be done on the basis of year 2022.

The sum of the ages of V and the one who likes Cow is 90. The one who likes Horse was born in an odd numbered year. V does not like Rats. The one who likes Horse is older than the one who likes Cow. V does not like Horse. T is

older than the one who like Horse. W likes Cats and was born in an even numbered year. The sum of the ages of S and the one who likes Rabbits is 85. X is younger than the one who likes Cats. U does not like Rabbits.

• Question No. 36

Who among the following likes Rats?

Options :

1. S
2. X
3. V
4. U
5. None of these

Answer : U

Direction:

Study the given information carefully and answer the questions that follow –

Six persons S, T, U, V, W, X are born in six different years 1947, 1959, 1964, 1972, 1995, 2007. All of them like different pet animals i.e. Rats, Cow, Cats, Horse, Dog and Rabbits.

• Question No. 40

Who among the following likes Horse?

Options :

1. S
2. X
3. V
4. U
5. None of these

Answer : S

Direction:

Each sentence has two blanks. Each blank indicates that something has been omitted. Choose the option with words that best fits the meaning of the sentence as a whole and mark it as your answer.

• Question No. 41

Recycling waste materials _____ a practice that all government bodies _____ undertaken in India before the law was passed.

Options :

1. is, has
2. were, had
3. was, had
4. are, had
5. is, has

Answer : was, had

Direction:

Each sentence has two blanks. Each blank indicates that something has been omitted. Choose the option with words that best fits the meaning of the sentence as a whole and mark it as your answer.

• Question No. 42

It is critical for a teacher to understand that _____ student, irrespective of their IQ, previous educational background, or financial position, has _____ own way in understanding the concepts.

Options :

1. Each, his or her
2. Every, their
3. All, its
4. Some, his or her
5. Each, their

Answer : Each, his or her

Direction:

Each sentence has two blanks. Each blank indicates that something has been omitted. Choose the option with words that best fits the meaning of the sentence as a whole and mark it as your answer.

• Question No. 43

Automation could either boost the prospects of creating more jobs for working women or _____ them from their current locations as manufacturing hubs _____ to IT hubs.

Options :

1. to relocate, change
2. to change, overhaul
3. changing, modify
4. displace, transform
5. moving, transfigure

Answer : displace, transform

Direction:

Given below are six sentences (A) (B) (C) (D) (E) and (F). Answer the following questions after rearranging the following sentences into a coherent paragraph.

(A) Since, the ground is constantly releasing this energy, as heat in infrared light.

(B) If the warm air at the surface gets blown upward into the cooler air above it, the surface air will continue to rise.

(C) First, even though the sun's energy comes down from the sky, it is mostly absorbed by the ground.

(D) Another reason is the decreasing air pressure with height.

(E) That's why the troposphere is actually heated from the ground up, causing it to be warmer near the surface and cooler higher up.

(F) Temperature decreases with height in the troposphere due to two reasons.

• Question No. 44

What should be the second sentence after rearrangement?

Options :

1. D
2. C
3. A
4. B
5. E

Answer : C

Direction:

• Question No. 46

What should be the fifth sentence after rearrangement?

Options :

1. C

- 2. A
- 3. E
- 4. D
- 5. B

Answer : D

Direction:

Given below are six sentences (A) (B) (C) (D) (E) and (F). Answer the following questions after rearranging the following sentences into a coherent paragraph.

- (A) Since, the ground is constantly releasing this energy, as heat in infrared light.
- (B) If the warm air at the surface gets blown upward into the cooler air above it, the surface air will continue to rise.
- (C) First, even though the sun's energy comes down from the sky, it is mostly absorbed by the ground.
- (D) Another reason is the decreasing air pressure with height.
- (E) That's why the troposphere is actually heated from the ground up, causing it to be warmer near the surface and cooler higher up.
- (F) Temperature decreases with height in the troposphere due to two reasons.

- Question No. 47

What should be the third sentence after rearrangement?

Options :

- 1. D
- 2. A
- 3. B
- 4. F
- 5. C

Answer : A

Direction:

Given below are six sentences (A) (B) (C) (D) (E) and (F). Answer the following questions after rearranging the following sentences into a coherent paragraph.

(A) Since, the ground is constantly releasing this energy, as heat in infrared light.

(B) If the warm air at the surface gets blown upward into the cooler air above it, the surface air will continue to rise.

(C) First, even though the sun's energy comes down from the sky, it is mostly absorbed by the ground.

(D) Another reason is the decreasing air pressure with height.

(E) That's why the troposphere is actually heated from the ground up, causing it to be warmer near the surface and cooler higher up.

(F) Temperature decreases with height in the troposphere due to two reasons.

• Question No. 48

What should be the last sentence after rearrangement?

Options :

1. A

2. D

3. B

4. C

5. F

Answer : B

Direction:

In each question, four alternatives are given for the Idiom/ Phrase highlighted in bold in the sentence. Choose the alternative which best expresses the meaning of the Idiom/ Phrase.

• Question No. 49

The new law is just a **red herring** meant to draw our attention away from the issues regarding education.

Options :

1. taking a risk
2. something fictitious
3. a clue meant to mislead you
4. something like a bribe
5. execution without direction or aimlessly

Answer : a clue meant to mislead you

Direction:

In each question, four alternatives are given for the Idiom/ Phrase highlighted in bold in the sentence. Choose the alternative which best expresses the meaning of the Idiom/ Phrase.

• Question No. 50

It's good to **toot your own horn** for the reason that occasionally you are required to be your finest spokesperson.

Options :

1. proving something right which is not
2. blabbering without any reason
3. disregarding others' capabilities
4. speak boastfully about oneself
5. thinking too highly of oneself

Answer : speak boastfully about oneself

Direction:

Read the following passage carefully and answer the questions given below it. Certain words/ Phrases have been printed in bold to help you locate them while answering some of the questions.

How many really suffer as a result of labor market problems? This is one of the most critical yet contentious social policy questions. In many ways, our social statistics exaggerate the degree of hardship. Unemployment does not have the same dire consequences today as it did in the 1930's when most of the unemployed were primary breadwinners, when income and earnings were usually much closer to the margin of subsistence, and when there were no countervailing social programs for those failing in the labor market. Increasing affluence, the rise of families with more than one wage earner, the growing predominance of secondary earners among the unemployed, and improved social welfare protection have unquestionably **mitigated** the consequences of joblessness.

Earnings and income data also overstate the dimensions of hardship. Among the millions with hourly earnings at or below the minimum wage level, the overwhelming majority are from multiple-earner, relatively affluent families. Most of those counted by the poverty statistics are elderly or handicapped or have family responsibilities which keep them out of the labor force, so the poverty statistics are by no means an accurate indicator of labor market pathologies.

Yet there are also many ways our social statistics underestimate the degree of labor-market-related hardship. The unemployment counts exclude the millions of fully employed workers whose wages are so low that their families remain in poverty. Low wages and repeated or prolonged unemployment frequently interact to undermine the capacity for self-support. Since the number experiencing joblessness at some time during the year is several times the number unemployed in any month, those who suffer as a result of forced idleness can equal or exceed average annual unemployment, even though only a minority of the jobless in any month really suffer. For every person counted in the monthly unemployment tallies, there is another working part-time because of the inability to find full-time work, or else outside the labor force but wanting a job. Finally, income transfers in our country have always focused on the elderly, disabled, and dependent, neglecting the needs of the working poor, so that the dramatic expansion of cash and in-kind transfers does not necessarily mean that those failing in the labor market are adequately protected.

As a result of such contradictory evidence, it is uncertain whether those suffering seriously as a result of labor market problems number in the hundreds of thousands or the tens of millions, and, hence, whether high levels of joblessness can be tolerated or must be countered by job creation and economic stimulus. There is only one area of agreement in this debate - that the existing poverty, employment, and earnings statistics are inadequate for one their primary applications, measuring the consequences of labor market problems.

- Question No. 51

As per this article, which of the following Statements is /are true?

- (A) social statistics give an unclear picture of the degree of hardship caused by low wages and insufficient employment opportunities
- (B) the currently used statistical procedures are the best for estimating the incidence of hardship that is due to unemployment
- (C) the areas of agreement are among poverty, employment, and earnings figures

Options :

1. Only (A)
2. Only (B)
3. Only (C)
4. Only (B) & (C)
5. None of these

Answer : Only (A)

Direction:
