**Study the following information carefully and answer the questions:**

Eight kids – Smith, Keith, Charles, Steve, Andrew, Ronny, Michael and Noah are sitting on a circular mat to play a passing game not necessarily in the same order. They are sitting in such a way that four are facing inward direction and the other four are facing an outward direction. No two kids are facing in the same direction are sitting next to each other.

Keith is sitting 3<sup>rd</sup> to left of Ronny, who is facing inside. Three kids are sitting between Smith and Keith. Smith and Charles are not facing in the same direction and neither Charles is an immediate neighbour of Smith. Michael and Andrew are facing in the same direction. Andrew is not an immediate neighbour of Keith. Noah is sitting 5<sup>th</sup> to the left of Andrew. Steve is sitting in exact between Michael and Smith.

- Question No. 1

Who is the immediate neighbour of both Michael and Smith?

**Options :**

1. Keith
2. Steve
3. Noah
4. Charles
5. None of these

Answer : Steve

Direction:

2. 983
3. 1026
4. 712
5. None of these

Answer : 1026

- Question No. 46

Pankaj spends 25% of an amount of money on education loan. 35% on buying air conditioner, 2% on food and 18% on insurance policy. He deposits the remaining amount of Rs. 2600 in bank. How much total amount does he spend on education loan and air conditioner together?

**Options :**

1. Rs. 7360
2. Rs. 7500
3. Rs. 7800
4. Rs. 6500
5. None of these

Answer : Rs. 7800

- Question No. 47

A shopkeeper purchases a mobile and marks its price up by 30%. He sells the mobile to a customer at a certain discount, thereby making a profit of 17% on the whole transaction. What is the discount percentage given by the shopkeeper?

**Options :**

1. 7.5%
2. 10%
3. 15%
4. 12%
5. None of these

Answer : 10%

- Question No. 48

A shopkeeper placed on display some books each with a marked price. He then posted a board 1/7 off on books. If the cost price of a book was 3/4 of the price at which it was actually sold, what is the ratio of the cost price to the marked price of the book?

**Options :**

1. 2:3
2. 2:7
3. 3:5
4. 9:14
5. None of these

Answer : 9:14

- Question No. 49

The sum of present ages of Ria and Anju is 50 years. Today Anju is 8 years older than Shweta. The respective ratio of the present ages of Ria and Shweta is 1 : 2. What was Anju's age 5 years ago?

**Options :**

1. 31 years
2. 36.5 years
3. 20 years
4. 27 years
5. 18 years

Answer : 31 years

• Question No. 50

A tradesman gives 18% discount on the marked price and 1 article free with every 19 articles bought and still gains 28%. If the marked price is 25% more than the cost price of Rs. 100, then what is the selling price?

Options :

1. Rs. 120.475
2. Rs. 116.64
3. Rs. 127.348
4. Rs. 123.2
5. None of these

Answer : Rs. 123.2

• Question No. 51

Namrata started a business, investing Rs. 10000. Nine months later Nutan joined her, investing Rs. 12000. If they made a profit of Rs. 14000 at the end of 2 years. How much must be the share of Nutan ?

Options :

1. Rs.8180
2. Rs.5300
3. Rs.4800
4. Rs.6000
5. None of these

Answer : Rs.6000

• Question No. 52

16 men and 10 women can complete a work in 25 days. All of them start working together and after working for 20 days the women stopped working. All men alone complete the remaining work in 30 days. How many days will it take for completing the entire work if only 10 women are employed on the job?

**Options :**

1. 18
2. 30
3. 45
4. 40
5. None of these

Answer : 30

• Question No. 53

A and B together can complete a job in 2 days. A alone takes  $x + 6$  days to complete the job, while B alone takes  $x + 24$  days to complete the same job.

1. What is the value of  $x$ ?

2. How many days will A alone take to complete the job?

**Options :**

1. 3 hours and 9 hours
2. 9 hours and 15 hours
3. 10 hours and 16 hours
4. 12 hours and 18 hours
5. None of these

22 25 80 407 2858 ?

Options :

- 1. 23337
- 2. 22287
- 3. 25733
- 4. 24533
- 5. None of these

Answer : 25733

• Question No. 59

A number is such that when it is multiplied by 7, it gives another number which is as much above from 320 as the original number (itself) is below 320. The average of the original number and the resultant number is:

**Options :**

1. 320
2. 210
3. 440
4. 380
5. 290

Answer : 320

• Question No. 60

Prashant bought an article at 45% discount on MRP, and claims to sell it at profit of 20% of MRP. When Pankaj offered him Rs. 2100 banknote, he cheated again by giving him Rs. 1200 instead of Rs. 660. Find overall profit% of Prashant (upto two decimal places).

**Options :**

1. 7.14%
2. 33.33%
3. 36.36%
4. 45.83%
5. None of these

Answer : 36.36%

• Question No. 61

An ODI is played between Australia and Pakistan. Team Australia's average run rate for the first 24 overs was 4.5 runs per over while in the remaining 26 overs, they had their best finisher at the crease, with whose help the average run rate for last 26 overs climbed up to 6.5 runs per over. Team Pakistan fell 12 runs short of the target. Find the average runs per over scored by Team Pakistan if it is given that Team Pakistan played all the 50 overs.

**Options :**

1. 5.3
2. 4
3. 6.7
4. 7.5
5. None of these

Answer : 5.3

• Question No. 62

Shalini bought 40 kg sugar for Rs 50 per kg, b kg sugar for Rs 70 per kg and (b + 4) kg sugar for Rs 50 per kg. She mixed all type of sugar together and the average cost price of 1 kg sugar is Rs 59.2. Find the quantity of sugar that is bought at Rs 50 per kg.

**Options :**

1. 223
2. 161
3. 150
4. 257
5. None of these

Answer : 257

• Question No. 63

Train A leaves Dehadun at 9:30 p.m and is travelling at a speed of 180 kmph, 5 hours later another train B leaves Dehadun and is travelling in same direction as train A, then in how many time (in minutes) train B will be 31 km ahead train A if speed of train B is 320 kmph?

**Options :**

1. 336 min
2. 531 min
3. 399 min
4. 636 min
5. 756 min

Answer : 399 min

• Question No. 64

Two trains A and B running at the speed of 180 km/hr and 360 km/hr respectively crossed another train 'M', which is standing stationary of length 350 meters in 105 sec and 40 sec respectively. How much time both train A and B will take to cross each other, if both of them are running in opposite direction?

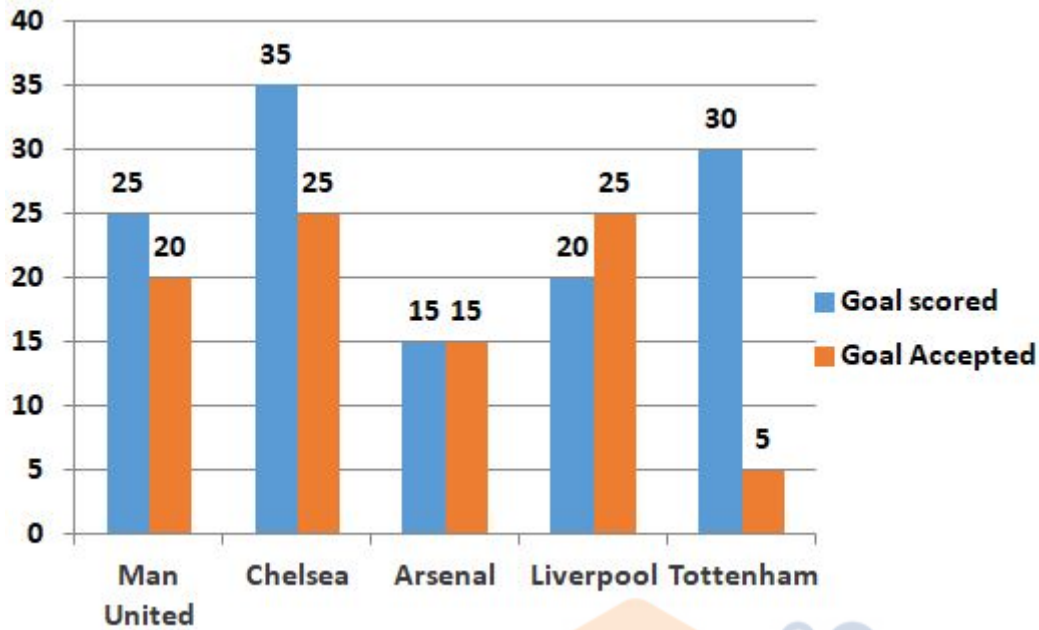

**Options :**

1. 22
2. 17
3. 57
4. 62
5. 31

Answer : 57

**Study the following information and answer the following questions**

There are three class i.e. V, VI and VII. In each of the given class male student and female student are there. Total number of student in class V is 2700. The number of Male student in Class VII is 1800. The number of Male student in Class VII and VI together is 3150. The number of male student in class VI is 20% more than the number of female student in class V. The ratio of number of Male student to Female student in class VII is 8:7, respectively. The total number of female student in all classes together is 3600.

- Question No. 78

Find the difference between the number of female in class VI and the number of males in class V?

**Options :**

1. 675

2. 535
3. 875
4. 485
5. None of these

Answer : 675

- Question No. 79

The number of male student of class VI is what percentage of the number of male student of class VII?

**Options :**

1. 25%
2. 75%
3. 50%
4. 15%
5. None of these

Answer : 75%

- Question No. 80

Four persons 'A', 'B', 'C' and 'D' have different amounts with them. 'D' has twice amount than that of 'A'. The amount 'B' has is 12.5% more than that of 'D'. The amount 'C' has is equal to the average amount all four persons have. If the sum of the average amount all four have and the amount 'A' has is Rs. 220, then find the amount 'B' has.

**Options :**

1. 180
2. 630
3. 450
4. 360
5. 220

Answer : 180

Direction:

**Directions (Q.81-90):** Read the following passage carefully and answer the questions given below it. Certain words/phrases have been printed in bold to help you locate them while answering some of the questions.

The ongoing pandemic has **exacerbated** several problems for women, one of them is mental health. The loss of income and mobility have compounded this.

Social and physical distancing are not an option for many women in India. They are not in positions of power within the household, they have no access to finances and, therefore, they are at greater risk of falling into poverty. They are increasingly trapped at home and have had to take on more unpaid responsibilities with schools being closed and family members requiring care. This has meant that women are more burdened than ever before. In rural areas, women are often heading single households as the men are in cities. They are unable to take care of themselves properly, and the idea of taking a day off is alien.

The loss of income and mobility, where these existed in the first place, have also resulted in women having to face situations of domestic violence, which has added to mental health challenges. In every way, the pandemic has reduced their ability to make decisions, and decreased their social power within the family structure. This has left them **vulnerable** to neglect, abuse and harm, all of which have contributed to lack of mental well being.

The loss of mobility has also led to women not being able to report instances of abuse or to seek medical help. They suffer from lack of community support at the best of times, the pandemic has made things worse for them. The

networks which could have helped in the form of small non-governmental organisations (NGOs) are few and far between and, therefore, largely unavailable to women during this time. This increases the distress they suffer.

In such a situation of tension, women are bound to suffer a variety of mental challenges, ranging from depression to anxiety to a feeling of worthlessness. This, once internalised, worsens the situation. This increase in their trauma decreases their ability to take care of both themselves and their families.

For many women, the trauma can take the form of increased feelings of negativity, mood swings, attention deficit problems and physical conditions such as loss of appetite, fatigue, and suicidal thoughts.

The pandemic has diverted health care which should be routinely available for women. This has led to a decrease in reproductive health services which means that women have less access to contraception, abortion and pre- and post-natal care.

Fortunately, we have **robust** grassroots organisations in the form of panchayati raj, which has a fair representation of women. These should be activated to look into the mental health needs of women, apart from, of course, their physical well being.

The government must think of including the services of mental health experts in the panchayati raj system in a much greater way to ensure women's safety. For a start, the government can work to use panchayati raj institutions to set up shelters for women suffering from domestic abuse. There must be more online services for women to report mental health problems, on condition of anonymity. The government can work with NGOs to increase awareness and look to **deploy** specialised care workers in mental health. There are several ways to reach out to women at risk in this time, and this is a time when they need the most support.

- Question No. 81

Which of the following is/are not a choice for most of the Indian women?

**Options :**

1. Having to work
2. Maintaining social gap
3. Distancing physically
4. Both 2& 3
5. None of these

Answer : Both 2& 3

**Directions (Q.81-90):** Read the following passage carefully and answer the questions given below it. Certain words/phrases have been printed in bold to help you locate them while answering some of the questions.

The ongoing pandemic has **exacerbated** several problems for women, one of them is mental health. The loss of income and mobility have compounded this.

Social and physical distancing are not an option for many women in India. They are not in positions of power within the household, they have no access to finances and, therefore, they are at greater risk of falling into poverty. They are increasingly trapped at home and have had to take on more unpaid responsibilities with schools being closed and family members requiring care. This has meant that women are more burdened than ever before. In rural areas, women are often heading single households as the men are in cities. They are unable to take care of themselves properly, and the idea of taking a day off is alien.

The loss of income and mobility, where these existed in the first place, have also resulted in women having to face situations of domestic violence, which has added to mental health challenges. In every way, the pandemic has reduced their ability to make decisions, and decreased their social power within the family structure. This has left them **vulnerable** to neglect, abuse and harm, all of which have contributed to lack of mental well being.

The loss of mobility has also led to women not being able to report instances of abuse or to seek medical help. They suffer from lack of community support at the best of times, the pandemic has made things worse for them. The networks which could have helped in the form of small non-governmental organisations (NGOs) are few and far between and, therefore, largely unavailable to women during this time. This increases the distress they suffer.

In such a situation of tension, women are bound to suffer a variety of mental challenges, ranging from depression to anxiety to a feeling of worthlessness. This, once internalised, worsens the situation. This increase in their trauma decreases their ability to take care of both themselves and their families.

For many women, the trauma can take the form of increased feelings of negativity, mood swings, attention deficit problems and physical conditions such as loss of appetite, fatigue, and suicidal thoughts.

The pandemic has diverted health care which should be routinely available for women. This has led to a decrease in reproductive health services which means that women have less access to contraception, abortion and pre- and post-natal care.

Fortunately, we have **robust** grassroots organisations in the form of panchayati raj, which has a fair representation of women. These should be activated to look into the mental health needs of women, apart from, of course, their physical well being.

The government must think of including the services of mental health experts in the panchayati raj system in a much greater way to ensure women's safety. For a start, the government can work to use panchayati raj institutions to set up shelters for women suffering from domestic abuse. There must be more online services for women to report mental health problems, on condition of anonymity. The government can work with NGOs to increase

awareness and look to **deploy** specialised care workers in mental health. There are several ways to reach out to women at risk in this time, and this is a time when they need the most support.

• Question No. 89

**Directions (Q.81-90): Read the following passage carefully and answer the questions given below it. Certain words/phrases have been printed in bold to help you locate them while answering some of the questions.**

The ongoing pandemic has **exacerbated** several problems for women, one of them is mental health. The loss of income and mobility have compounded this.

Social and physical distancing are not an option for many women in India. They are not in positions of power within the household, they have no access to finances and, therefore, they are at greater risk of falling into poverty. They are increasingly trapped at home and have had to take on more unpaid responsibilities with schools being closed and family members requiring care. This has meant that women are more burdened than ever before. In rural areas, women are often heading single households as the men are in cities. They are unable to take care of themselves properly, and the idea of taking a day off is alien.

The loss of income and mobility, where these existed in the first place, have also resulted in women having to face situations of domestic violence, which has added to mental health challenges. In every way, the pandemic has reduced their ability to make decisions, and decreased their social power within the family structure. This has left them **vulnerable** to neglect, abuse and harm, all of which have contributed to lack of mental well being.

The loss of mobility has also led to women not being able to report instances of abuse or to seek medical help. They suffer from lack of community support at the best of times, the pandemic has made things worse for them. The networks which could have helped in the form of small non-governmental organisations (NGOs) are few and far between and, therefore, largely unavailable to women during this time. This increases the distress they suffer.

In such a situation of tension, women are bound to suffer a variety of mental challenges, ranging from depression to anxiety to a feeling of worthlessness. This, once internalised, worsens the situation. This increase in their trauma decreases their ability to take care of both themselves and their families.

For many women, the trauma can take the form of increased feelings of negativity, mood swings, attention deficit problems and physical conditions such as loss of appetite, fatigue, and suicidal thoughts.

The pandemic has diverted health care which should be routinely available for women. This has led to a decrease in reproductive health services which means that women have less access to contraception, abortion and pre- and post-natal care.

Fortunately, we have **robust** grassroots organisations in the form of panchayati raj, which has a fair representation of women. These should be activated to look into the mental health needs of women, apart from, of course, their physical well being.

The government must think of including the services of mental health experts in the panchayati raj system in a much greater way to ensure women's safety. For a start, the government can work to use panchayati raj institutions to set up shelters for women suffering from domestic abuse. There must be more online services for women to report mental health problems, on condition of anonymity. The government can work with NGOs to increase awareness and look to **deploy** specialised care workers in mental health. There are several ways to reach out to women at risk in this time, and this is a time when they need the most support.

- Question No. 90

What measures have been suggested by the writer to take care of the issues of Indian women during the pandemic?

**Options :**

1. Government should start collaborating with NGOs in order to take care of the mental health of women.
2. Government should involve mental health experts and induct them into the panchayati raj system.

3. Door- to-door help should be offered to women.
4. Both 1 & 2
5. All 1,2 & 3

Answer : Both 1 & 2

**Directions (Q.91 – 98):** In the given passage, there are blanks, each of which has been numbered. Against each five words are suggested, one of which fits the blank appropriately. Find out the appropriate word in each case.

The Centre has taken a step to (91) the crisis that has been building up in federal ties over unpaid GST compensation: it has offered to borrow the Rs 1.1 lakh crore required to pay GST compensation and (92) on the money to the states as loans. The loan would, presumably, be serviced by extending the life of the GST compensation cess beyond the five years (93) in the GST Compensation Act: the cess proceeds would be passed on to the states, with which they would service their loans to the Centre, and the Centre, in turn, would use those receipts to service its own loan on this count. It is not a perfect solution, but the states should (94) it, subject, perhaps, to one condition, and move forward.

The loan taken to finance GST compensation ultimately stays on the states' books, under this (95). That should not take away from their normal eligibility to borrow – this is crucial. Otherwise, the term compensation would have no meaning. As tax collections have been below expectations, (96) is the only way to generate resources for compensation. Under any rational interpretation of the term compensation, the injured party, the states in this case, cannot be taking a loan to compensate itself.

But that is what the Centre (97), because of its irrational fear of rating agencies, presumably, and of increasing the Centre's fiscal deficit. Macroeconomic stress is the same whether the borrowing is done by the Centre or the states. Since the loan is to be (98) from the proceeds of the compensation cess, whose life would get extended for quite some time, it is of no great practical consequence for the states, provided their normal borrowing capacity is not impaired by the compensation loan.

- Question No. 91

Choose the most appropriate word.

**Options :**

1. Increase
2. Agitate
3. Defuse
4. Depart
5. None of these

Answer : Defuse

Direction:

4. A CD-ROM holds more information than a CD-RW.
5. None of these

Answer : A CD-RW can be written, a but a CD-ROM can only be read from.

• Question No. 122

The operating system determines a manner in which all the following occur except

**Options :**

1. user creating of a document
2. user interaction with the processor
3. printer output
4. data displayed on the monitor
5. None of these

Answer : user interaction with the processor

- Question No. 123

The process of starting or restarting of a computer is called

**Options :**

1. Booting
2. Hibernation
3. re-starting
4. Scanning
5. None of these

Answer : Booting

- Question No. 124

The process that starts Operating System when the user turns on a computer system is known as \_\_\_\_\_

**Options :**

1. Thrashing
2. Freezing
3. Booting
4. Compressing
5. None of these

Answer : Booting

- Question No. 125

A permanent storage device that stores information using electricity, such as a flash drive or memory card.

**Options :**

1. Optical Storage Device
2. Input Device
3. Electronic Storage Device

4. Magnetic Storage Device
5. None of these

Answer : Electronic Storage Device

- Question No. 126

If we press CTRL + ESC it will

**Options :**

1. Undo the last command
2. Spell check
3. Open the start menu
4. Close a Window
5. None of these

Answer : Open the start menu

- Question No. 127

Which of the following is a temporary storage location use for cut, copy and paste –

**Options :**

1. Font
2. File
3. Folder
4. Clip board
5. None of these

Answer : Clip board

- Question No. 128

Four out of the five given options have something similar and thus form a group, which of the following does not belong to the group –

**Options :**

1. Operating system
2. Compiler
3. Debugger
4. Assembler
5. Interpreter

Answer : Operating system

• Question No. 129

Process of placing data in a temporary working area for another program to process is known as –

**Options :**

1. Debugging
2. Patching
3. Spooling
4. Porting
5. None of these

Answer : Spooling

• Question No. 130

A computer that is not connected to a network is known as

**Options :**

1. Workstation
2. Server
3. state of the art computer
4. Stand-Alone Computer
5. None of these

Answer : Stand-Alone Computer

- Question No. 131

An optical storage device in the form of a disc that holds about 4.7 gigabytes (GB) of information is called\_\_\_\_\_.

**Options :**

1. Blue-ray disc
2. CD
3. DVD
4. solid state drive
5. None of these

Answer : DVD

- Question No. 132

Which of the following is a unit of digital storage equal to approximately one trillion bytes?

**Options :**

1. GB
2. TB
3. PCI
4. MB
5. None of these

Answer : TB

- Question No. 133

A device that is used with a computer but is not an essential part of it.

**Options :**

1. RAM
2. CPU

3. Peripheral
4. PCIe
5. None of these

Answer : Peripheral

• Question No. 134

A \_\_\_\_\_ operation may give access to the top without modifying the stack.

**Options :**

1. Push
2. pop
3. Peek
4. Display
5. Reveal

Answer : Peek

• Question No. 135

CAM stands for

**Options :**

1. Computer Aided Machine
2. Computer Aided Manufacturing
3. Computer Automatic Machine
4. Computer Auto Manufacturing
5. None of these

Answer : Computer Aided Manufacturing

• Question No. 136

HTML stands for

**Options :**

1. Hyper Transmission Markup Language
2. Hyper Text Machine Language
3. Hyper Transfer Make up Language
4. Hyper Text Machinery Language
5. Hyper Text Markup Language

Answer : Hyper Text Markup Language

• Question No. 137

What is an applet?

**Options :**

1. a small apple
2. a simple computer application
3. a Java-specific program
4. All of these
5. None of these

Answer : a simple computer application

• Question No. 138

Which of the following memory is the permanent memory in your computer?

**Options :**

1. CD-ROM
2. CPU
3. Floppy
4. RAM
5. ROM

Answer : ROM

- Question No. 139

----- is a technique of processing data that occur in one large group instead of individually. It is usually done to help conserve system resources and allow for any modifications before being processed.

**Options :**

1. Pipelining
2. Batch processing
3. Parallel processing
4. Hyper threading
5. None of these

Answer : Batch processing

- Question No. 140

Computer programs are also known as

**Options :**

1. Documents
2. Peripherals
3. Applications
4. Operating system
5. None of these

Answer : Applications

- Question No. 141

Pen drive has which type of memory?

**Options :**

1. SRAM
2. RAM

3. Cache memory
4. Flash memory
5. None of these

Answer : Flash memory

• Question No. 142

What is the name of that key which changes the action of another key when the two are pressed together?

**Options :**

1. Alphanumeric Keys
2. Modifier keys
3. Navigation keys
4. Special keys
5. None of these

Answer : Modifier keys

• Question No. 143

An \_\_\_\_\_ is system software that manages computer hardware and software resources and provides common services for computer programs.

**Options :**

1. Supervisor
2. Input/Output program
3. Job control program
4. Operating system
5. None of these

Answer : Operating system

• Question No. 144

In which of the following group, Header and Footer can be found on the insert button while using PowerPoint?

**Options :**

1. Tables group
2. Object group
3. Illustration group
4. Text group
5. None of these

Answer : Text group

- Question No. 145

Hard disk is a .....

**Options :**

1. Primary storage
2. Secondary storage
3. Flash drives
4. Memory cards
5. None of these

Answer : Secondary storage

- Question No. 146

Who is recognised as the Father's of the Internet?

**Options :**

1. Bob Kahn & Vint Cerf
2. Claude Shannon
3. Donald Davies
4. Steve Crocker
5. None of these

Answer : Bob Kahn & Vint Cerf

- Question No. 147

What is the process we called to change the name of file?

**Options :**

1. Retagging
2. Renaming
3. Defragmenting
4. Transforming
5. None of these

Answer : Renaming

- Question No. 148

In Excel, \_\_\_\_\_ contains one or more worksheets.

**Options :**

1. label
2. template
3. cell
4. workbook
5. None of these

Answer : workbook

- Question No. 149

The Internet utilizes the TCP/IP protocol and is accessed using a computer modem or network that is connected through an ISP. What is the role of ISP?

**Options :**

1. Provides IP address
2. Provides a software package, username, password and access phone number for Internet access
3. Provides Domain name registration and hosting
4. All of the above
5. None of the above

Answer : Provides Domain name registration and hosting

• Question No. 150

Which of the following file extension denotes Excel Spreadsheet?

**Options :**

1. .xlr
2. .docx
3. .xlsx
4. .xls
5. None of these

Answer : .xls

• Question No. 151

Advanced word processing features include all EXCEPT of:

**Options :**

1. alternate header and footers
2. style-sheets
3. detailed architectural drawings
4. columns
5. None of these

Answer : detailed architectural drawings

- Question No. 152

Which of the following code can be understood by Computers?

**Options :**

1. Machine code
2. object code
3. Source code
4. Analog code
5. None of these

Answer : Machine code

- Question No. 153

MS PowerPoint, spreadsheet and photo-editing are examples of\_\_\_\_\_.

**Options :**

1. application software
2. system software
3. operating system software
4. antivirus software
5. None of these

Answer : application software

- Question No. 154

How many operating system can be at work on a computer at a time?

**Options :**

1. Only one
2. Two
3. Three

- 4. Four
- 5. None of the these

Answer : Only one

- Question No. 155

To boot the computer, it must have a(n)

**Options :**

- 1. Assembler
- 2. Loader
- 3. Operating system
- 4. DOS
- 5.

Answer : Operating system

- Question No. 156

A \_\_\_\_\_ is a hardware device that converts data between transmission media so that it can be transmitted from computer to computer.

**Options :**

- 1. Decoder
- 2. Modem
- 3. Modulator
- 4. Demodulator
- 5. None of these

Answer : Modem

- Question No. 157

Software is a set of instructions, data or programs used to operate computers and execute specific tasks.

**Options :**

1. True
2. False
- 3.
- 4.
- 5.

Answer : True

• Question No. 158

Which memory is located closest to the CPU?

**Options :**

1. Registers
2. Main memory
3. Cache
4. Hard disk
5. None of these

Answer : Registers

• Question No. 159

To select an entire column in MS Excel, which of the following is used?

**Options :**

1. Alt + Shift
2. Ctrl + Space
3. Ctrl + Alt + Del
4. Ctrl +Alt
- 5.

Answer : Ctrl + Space

- Question No. 160

Which of the Following is System Software

**Options :**

1. Interpreter
2. Utility Programs
3. Assembler
4. Linker
5. Text editor

Answer : Utility Programs

- Question No. 161

What is the full form of "FITL"?

**Options :**

1. Finance Interest Term Lender
2. Funded Interest Term Loan
3. Financial Interest Tax Lender
4. Fund Interest Taxation Lender
5. Fund Interest Technological Loan

Answer : Funded Interest Term Loan

- Question No. 162

EXIM Bank was set up in \_\_\_\_\_.

**Options :**

1. 1975
2. 1982
3. 1992

4. 2002

5. 2005

Answer : 1982

- Question No. 163

What is the tagline of India Post Payments Bank (IPPB)?

**Options :**

1. Qadar Aapki Mehnat Ki
2. Get To Know Us Better
3. Aapka Bank Aapke Dwar
4. Your Everyday Bank For all of your payments, banking and financial needs
5. Simplifying Payments For India

Answer : Aapka Bank Aapke Dwar

- Question No. 164

Who is the regulator of Housing Finance Companies?

**Options :**

1. NHB
2. RBI
3. SEBI
4. IRDAI
5. NABARD

Answer : RBI

- Question No. 165

What is the full form of CTS?

**Options :**

1. Cheque Truncating System
2. Cheque Test Scale
3. Cheque Testing System
4. Cheque Truncation System
5. None of these

Answer : Cheque Truncation System

• Question No. 166

When was RBI established?

**Options :**

1. 1 July, 1935
2. 1 April, 1934
3. 1 July, 1934
4. 1 April, 1935
5. None of these

Answer : 1 April, 1935

• Question No. 167

What is the full form of SCSB?

**Options :**

1. Sustainable Certified Syndicate Banks
2. Supported and Certified Syndicate Banks
3. Self-Certified Supported Banks
