Read the passage carefully then answer the questions given below.

People have long circulated news via word-of-mouth, and as language evolved into writing and literacy – and governments played larger roles in people’s lives – sharing information became a necessity. However, disseminating news and information on paper presented significant challenges. When each copy had to be handwritten, mass distribution was impossible. They were first chiselled in stone or metal; later, they were handwritten and distributed in public forums or read from scrolls by town criers. Though both ancient Romans and Chinese – as well as other ancient civilizations – had early forms of news media, they do not qualify as newspapers because they could not be mass-distributed.

The first true newspapers arrived after Johannes Gutenberg introduced his movable type printing press to the European world around 1440. Though printing presses with movable type had existed in eastern Asia for around two centuries, they never made it to Europe; furthermore, Gutenberg’s version made it significantly faster to mass produce documents. By 1500, the printing press had made its way throughout Europe, and news sheets (or news books) were mass-distributed.

The first weekly newspaper was published in Germany by Johann Carolus in 1604. Called Relation aller Fürnemmen und gedenckwürdigen Historien, the publication satisfied the four tenets of a “true” newspaper: Accessibility by the public, Published at a regular interval (daily, weekly, monthly, etc.), Information is current, Covers a variety of topics (politics, events, entertainment, sports, etc.) Despite meeting the requirements for a newspaper, there is some debate as to whether The Relation qualifies as the world’s first newspaper since it was printed in quarto, not folio, size. It’s worth noting the World Association of Newspapers considers The Relation the first true newspaper.

Other German newspapers followed, and in 1618 the world’s first broadsheet newspaper printed in folio size was published in Amsterdam, called Courante uyt Italien, Duytslandt, &c. The newspaper format soon spread throughout Europe, with newspapers published in Spain, France, and Sweden. The first English newspaper was published in 1665 in Oxford, England. Known as the Oxford Gazette, the newspaper moved to London in 1666 and was renamed the London Gazette. It’s still being published today. Soon after, the newspaper became a staple in all major European countries. It then made its way to the New World.

- Question No. 25

Which of the following options is satisfying the condition for being a tenant of a “true newspaper”?

Options :

1. A newspaper which is accessible to only Asian readers.
2. A newspaper which was published once in a month.
3. A newspaper which was printed in quarto, not folio, size.
4. A newspaper which covers historic developments leading to various events.
5. A newspaper which is printed in press and is not handwritten.

Answer : A newspaper which was published once in a month.

Direction:

By 1500, the printing press had made its way throughout Europe, and news sheets (or news books) were mass-distributed.

The first weekly newspaper was published in Germany by Johann Carolus in 1604. Called Relation aller Fürnemmen und gedenckwürdigen Historien, the publication satisfied the four tenets of a "true" newspaper: Accessibility by the public, Published at a regular interval (daily, weekly, monthly, etc.), Information is current, Covers a variety of topics (politics, events, entertainment, sports, etc.) Despite meeting the requirements for a newspaper, there is

some debate as to whether The Relation qualifies as the world's first newspaper since it was printed in quarto, not folio, size. It's worth noting the World Association of Newspapers considers The Relation the first true newspaper.'

Other German newspapers followed, and in 1618 the world's first broadsheet newspaper printed in folio size was published in Amsterdam, called Courante uyt Italien, Duytslandt, &c. The newspaper format soon spread throughout Europe, with newspapers published in Spain, France, and Sweden. The first English newspaper was published in 1665 in Oxford, England. Known as the Oxford Gazette, the newspaper moved to London in 1666 and was renamed the London Gazette. It's still being published today. Soon after, the newspaper became a staple in all major European countries. It then made its way to the New World.

- Question No. 30

In ancient time what was the biggest challenge that the people had to face while circulating the news?

Options :

1. The biggest challenge was of printing the news on a paper
2. Earlier each copy had to be handwritten; mass distribution was next to impossible.
3. It was a herculean task for the editors to get an affirmation by government for printing the news
4. Both (1) and (3)
5. All are incorrect

Answer : Earlier each copy had to be handwritten; mass distribution was next to impossible.

Answer : 27%

• Question No. 36

Sohan was travelling on one side of the express way with a constant speed of 110 kmph in his car while Mohan was travelling with a constant speed of 80 kmph in the opposite direction. When they crossed each other, Sohan decided to take a U-turn and meet him. But before taking a U turn, Sohan had to travel for another 6 minutes. How long will it take for Sohan to meet Mohan? [Assume time taken by Sohan to take U turn is negligible]

Options :

- 1. 50 min
- 2. 44 min
- 3. 60 min
- 4. 100 min
- 5. none of these

Answer : 44 min

• Question No. 37

There are 3 points A, B and C in a straight line such that point B is equidistant from points A and C. A boat can travel from point A to C downstream in 20 hours and from B to A upstream in 15 hours. Find the ratio of boat in still water to speed of stream.

Options :

- 1. 5 : 7
- 2. 1 : 9
- 3. 5 : 1
- 4. 17 : 16
- 5. none of these

Answer : 5 : 1

• Question No. 38

In a village, two contestants are contesting in an election. 40% of the registered voters cast their votes in the election and U wins the election by 1000 votes. If U had received 20% less votes, U's votes would have been equal to V's votes. How many registered voters are there in the village?

Options :

1. 4250
2. 8000
3. 10000
4. 4500
5. none of these

Answer : 10000

• Question No. 39

Two trains running at the speed of 63 km/h and 45 km/hr respectively, on parallel tracks in opposite directions, are passing each other in 15 seconds. When the same trains are travelling in same direction with the same speed, a person sitting in the faster train observes that he passes the other train in 30 seconds. Find the lengths of the trains?

Options :

1. 170 m, 115 m
2. 125 m, 400 m
3. 150 m, 300 m
4. 65 m, 105 m
5. none of these

Answer : 150 m, 300 m

• Question No. 40

P, Q and R enter into a partnership by investing Rs. 5000, Rs. 8000 and Rs. 5500 respectively. After 4 months, P invested Rs. 2500 more and Q withdraw the whole amount. And after another 5 months, R withdraws Rs. 1500 and at the same time Q enters into a partnership by investing Rs.20,000. Find the difference between the shares of P and R, if the total profit at the end of the year is Rs.105075?

Options :

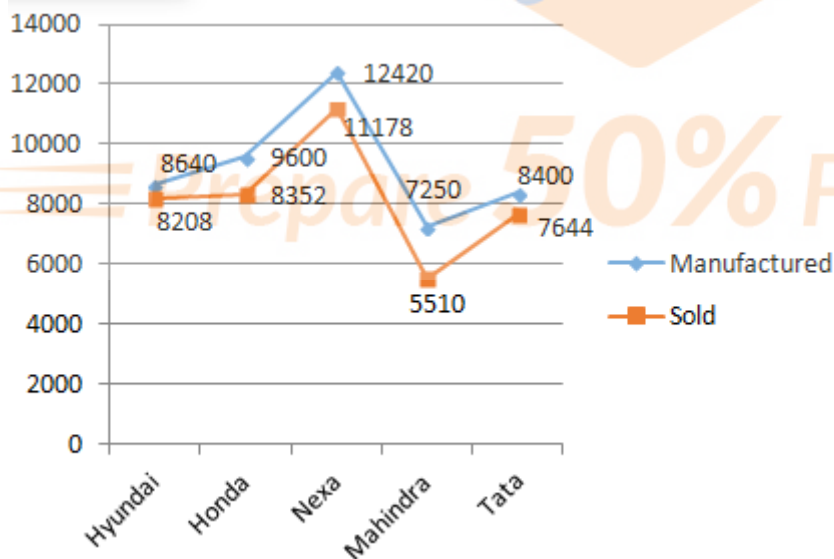

1. Rs.8250
2. Rs.8325
3. Rs.8150
4. Rs.8055
5. None of these

Answer : Rs.8325

2. 167
3. 176
4. 173
5. None of these

Answer : 176

- Question No. 51

7 men, 4 women, and 5 children were given as assignment of distributing 5328 books to students in a school over a period of four days. All of them distributed books on the first day. One of the second day, two men and one child were absent and on the third day, three men and one woman were absent. To complete the distribution two more women are hired and all of them worked on the last day. If the ratio of the number of books distributed in a day by a man, a woman and a child was 10:7:5 respectively, a total of approximately how many books were distributed on the third day?

Options :

1. 500
2. 1032
3. 860
4. 960
5. None of these

Answer : 1032

• Question No. 52

48 litres are drawn from a cask full of wine and is then filled with water. This operation is performed two more time. The ratio of the quantity of wine now left in cask to that of the water is 8:19. How much wine the cask hold originally?

Options :

1. 144 litres
2. 72 litres
3. 180 litres
4. 37.8 litres
5. 56 litres

Answer : 144 litres

• Question No. 53

A dishonest dealer marks up the price of his goods by 35% & gives a discount of 10% to the customer. He also uses a 900 gram weight instead of a 1 kg weight. Then find the profit percent gain by the dealer.

Options :

1. 55%
2. 22%
3. 35%
4. 60%
5. None of these

Answer : 35%

• Question No. 54

The perimeter of a square field is 10 cm more than the perimeter of a rectangle. The length of the rectangle is 50 cm which is 200% of its width. If a street of width 8 cm surrounds from outside the square, then find the total cost of constructing the street at the rate of Rs. 22 per sq. cm?

Options :

1. Rs. 53760
2. Rs. 40320
3. Rs. 33792
4. Rs. 46000
5. None of these

Answer : Rs. 33792

• Question No. 55

Rahul invested Rs. $(X - 5000)$ at $R\%$ p.a. SI for 3 years and Rs. X at $R\%$ p.a. CI for 2 years. If simple interest earned in 3 years is Rs. 840 more than compound interest earned in 2 years and the ratio of amount invested at SI and CI is 4:5, then find integral value of R .

Options :

1. 12%
2. 10%
3. 5%
4. 12.5%
5. none of these

Answer : 12%

- Question No. 70

How many boxes are placed below the Box F?

Options :

1. Three
2. Two
3. Four
4. One

5. None

Answer : Four

Direction:

Study the following information carefully and answer the questions given below:

Eight persons A, B, C, D, E, F, G and H were born in different months i.e. March, September, November and December on two different dates 12th or 20th. Only one person was born on one date. They all like different mobiles i.e. Sony, Vivo, Redmi, Oppo, Nokia, Apple, Lenovo and Realme but not necessarily in the same order.

A was born in a month having 30 days. Only one person was born between H and the one who likes Lenovo and none of them was born in March. Two persons were born between the ones who like Lenovo and Apple. Five persons were born between C and F, who was born after C. B was not the youngest. E was born before G and both of them were born in the same month. No one was born before the one who likes Redmi. No one is born between D and the one who likes Vivo. D does not like Vivo. Four persons were born between the F, who likes Nokia and the one who likes Oppo. One of the persons born in November likes Sony. The one who was born on 20th September likes Vivo. E doesn't like Sony. C doesn't like Apple.

- Question No. 71

Who among the following likes Apple?

Options :

1. D
2. C
3. E
4. B
5. None of these

Answer : E

Direction:

Study the following information carefully and answer the questions given below:

Eight persons A, B, C, D, E, F, G and H were born in different months i.e. March, September, November and December on two different dates 12th or 20th. Only one person was born on one date. They all like different mobiles i.e. Sony, Vivo, Redmi, Oppo, Nokia, Apple, Lenovo and Realme but not necessarily in the same order.

A was born in a month having 30 days. Only one person was born between H and the one who likes Lenovo and none of them was born in March. - Question No. 75

How many persons were born before F?

Options :

1. Five
2. Six
3. Three
4. One
5. Seven

Answer : Six

Direction:

Study the following information carefully to answer the following question:

There are eight members in the family having three generations. There are only three married couples. S is granddaughter of N. M is mother of O. T is son in law of P. N has only one son. O is unmarried. R is nephew of O. Q is mother of S.

- Question No. 76

How O is related to N?

Options :

1. Aunt
2. Daughter
3. Mother-in-law
4. Niece
5. None of these

Answer : Daughter

Direction:

Study the following information carefully to answer the following question:

There are eight members in the family having three generations. There are only three married couples. S is granddaughter of N. M is mother of O. T is son in law of P. N has only one son. O is unmarried. R is nephew of O. Q is mother of S.

- Question No. 77

Who among the following is son-in-law of Q?

Options :

1. R

- 2. M
- 3. T
- 4. Q
- 5. O

Answer : T

Direction:

Study the following information carefully to answer the following question:

There are eight members in the family having three generations. There are only three married couples. S is granddaughter of N. M is mother of O. T is son in law of P. N has only one son. O is unmarried. R is nephew of O. Q is mother of S.

- Question No. 78

Who among the following is niece of O?

Options :

- 1. S
- 2. R
- 3. T
- 4. Q
- 5. M

Answer : S

- Question No. 79

How many pairs of letters are there in the word "APPLICATION" each of which have as many letters between them in the word as they have between them in the English alphabetical series?

Options :

- 1. Two
- 2. Four

- 3. One
- 4. Three
- 5. Five

Answer : Three

• Question No. 80

Which alphabet is 3rd from the left in the meaningful four-letter word formed from the first, fourth, seventh and ninth letter of the word 'NEIGHBOUR'? If more than one word is formed, then mark answer as X and no meaningful word is formed then mark answer as Z.

Options :

- 1. G
- 2. Z
- 3. X
- 4. N
- 5. R

Answer : Z

Direction:

Directions: Study the following carefully and answer the questions below:

There are some persons in a row facing north. A sits fourth to the right of C. C is fifth to the left of D. A sits 6th to the left of B. H is 14th to the left of G who sits fourth from the end. F sits 9th to the right of H. Only 3 person sits to the left of H. E sits third to the right of H. C is fifth from the left end.

• Question No. 81

How many number of persons are sitting in the row?

Options :

- 1. 23
- 2. 21

- 3. 22
- 4. 25
- 5. None of these

Answer : 21

Direction:

Directions: Study the following carefully and answer the questions below:

There are some persons in a row facing north. A sits fourth to the right of C. C is fifth to the left of D. A sits 6th to the left of B. H is 14th to the left of G who sits fourth from the end. F sits 9th to the right of H. Only 3 person sits to the left of H. E sits third to the right of H. C is fifth from the left end.

• Question No. 82

How many persons are sitting are between D and G in the given arrangement?

Options :

- 1. 6
- 2. 5
- 3. 8
- 4. 7
- 5. None of these

Answer : 7

Direction:

Directions: Study the following carefully and answer the questions below:

There are some persons in a row facing north. A sits fourth to the right of C. C is fifth to the left of D. A sits 6th to the left of B. H is 14th to the left of G who sits fourth from the end. F sits 9th to the right of H. Only 3 person sits to the left of H. E sits third to the right of H. C is fifth from the left end.

• Question No. 83

Who sits eighth to the left of B?

Options :

1. D
2. C
3. E
4. F
5. None of these

Answer : E

Direction:

Directions: Study the following carefully and answer the questions below:

There are some persons in a row facing north. A sits fourth to the right of C. C is fifth to the left of D. A sits 6th to the left of B. H is 14th to the left of G who sits fourth from the end. F sits 9th to the right of H. Only 3 person sits to the left of H. E sits third to the right of H. C is fifth from the left end.

- Question No. 84

Which of the following are immediate neighbours of H?

Options :

1. F
2. A
3. D
4. C
5. None of these

Answer : C

Direction:

Directions: Study the following carefully and answer the questions below:

There are some persons in a row facing north. A sits fourth to the right of C. C is fifth to the left of D. A sits 6th to the left of B. H is 14th to the left of G who sits fourth from the end. F sits 9th to the right of H. Only 3 person sits to the left of H. E sits third to the right of H. C is fifth from the left end.

- Question No. 85

In the following arrangement, A is in which position with reference to D?

Options :

1. Immediate left
2. Immediate right
3. Second to the right
4. Cannot be determined
5. None of these

Answer : Immediate left

Direction:

Each of the following questions below consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read both the statements and give answer.

- Question No. 86

A, B, C, D, E, F are sitting in a circular table. How many persons are facing to the centre?

I. A faces to the centre and B sits second to the right of A. Only two persons are sit in between D and E who doesn't face to the centre. C and D face same direction.

II. C sits second to the right of B. D is not an immediate neighbour of C. F faces same direction as E faces but opposite direction as C faces.

Options :

1. If the data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.
2. If the data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
3. If the data either in statement I alone or in statement II alone are sufficient to answer the question.

4. If the data even in both statements I and II together are not sufficient to answer the question
5. If the data in both statement I and II together are necessary to answer the question.

Answer : If the data even in both statements I and II together are not sufficient to answer the question

Direction:

Each of the following questions below consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read both the statements and give answer.

- Question No. 87

What is the code for 'move' in a code language?

I. In that language 'jo gh na' means 'move room green' and 'jo gh jk' means 'move cloud room'.

II. In the same language 'jo na fd' means 'move green bag'.

Options :

1. If the data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.
2. If the data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
3. If the data either in statement I alone or in statement II alone are sufficient to answer the question.
4. If the data even in both statements I and II together are not sufficient to answer the question
5. If the data in both statement I and II together are necessary to answer the question.

Answer : If the data in both statement I and II together are necessary to answer the question.

Direction:

Each of the following questions below consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read both the statements and give answer.

- Question No. 88

There are six persons are sitting in a row facing north direction, who sits immediate to the left of Q?

I. Only one person sits in between Q and T. Q sits third from one of the ends.

II. R sits second to the left of S who sits fourth to the right of P. Q sits second to the left of U who is not an immediate neighbour of R.

Options :

1. If the data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.
2. If the data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
3. If the data either in statement I alone or in statement II alone are sufficient to answer the question.
4. If the data even in both statements I and II together are not sufficient to answer the question
5. If the data in both statement I and II together are necessary to answer the question.

Answer : If the data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.

Direction:

Each of the following questions below consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read both the statements and give answer.

• Question No. 89

Five persons P, Q, R, S, T have different weight, who among the following is heaviest person?

I. Q is heavier than only two persons. R is heavier than P who is not lighter than S and T.

II. P is heavier than T. S is lighter than R.

Options :

1. If the data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.
2. If the data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
3. If the data either in statement I alone or in statement II alone are sufficient to answer the question.

4. If the data even in both statements I and II together are not sufficient to answer the question
5. If the data in both statement I and II together are necessary to answer the question.

Answer : If the data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.

Direction:

Each of the following questions below consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read both the statements and give answer.

• Question No. 90

There are six members V, W, X, Y, Z and M in a family, how is Z related to Y?

- I. Y is son of X. V and M are child of W. Z is grandfather of V.
- II. X is mother-in-law of W, who is a female member. Y has no brother.

Options :

1. If the data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.
2. If the data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
3. If the data either in statement I alone or in statement II alone are sufficient to answer the question.
4. If the data even in both statements I and II together are not sufficient to answer the question
5. If the data in both statement I and II together are necessary to answer the question.

Answer : If the data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.

Direction:

Read the given information carefully and answer the questions:

Twelve Persons are sitting in two parallel rows - Tony, Sanya, Shiva, Raghu, Sanu and Anuj are sitting in row 1 facing south and Sai, Abhi, Naina, Ranu, Raju and Biswa are sitting in row 2 facing north. Ranu sits third to the left of Sai. Naina sits left of Biswa. Anuj does not face Sai. Neither Ranu nor Sai sits at extreme ends. Abhi sits at one of the extreme ends. Raju does not face Anuj. Two persons sit between Sanya and Shiva. Sanu faces Ranu. Anuj does not

sit at any of the extreme ends. Only two people sit between Abhi and Raju. Anuj is not an immediate neighbour of Sanu. Shiva is not an immediate neighbour of Sanu. Tony does not face Sai.

- Question No. 91

Who among the following sits diagonally opposite to Abhi?

Options :

1. Naina
2. Shiva
3. Tony
4. Biswa
5. None of these

Answer : Tony

Direction:

Read the given information carefully and answer the questions:

• Question No. 95

How many persons sit between Naina and Biswa?

Options :

1. None
2. Three
3. One
4. Two

5. None of these

Answer : Two

Direction:

In these questions, relationship between different elements is shown in the statements. The statements are followed by conclusions. Study the conclusions based on the given statements and select the appropriate answer. Give answer-

• Question No. 96

Statements: $K < R = B > N$, $C > Q < K$, $P ? N$

Conclusions: I. $C > N$ II. $R > P$

Options :

1. If only conclusion I is true
2. If only conclusion II is true
3. If both conclusions I and II are true
4. If either conclusion I or II is true
5. If neither conclusion I nor II is true

Answer : If only conclusion II is true

Direction:

In these questions, relationship between different elements is shown in the statements. The statements are followed by conclusions. Study the conclusions based on the given statements and select the appropriate answer. Give answer-

• Question No. 97

Statements: $S < Z$, $P ? C ? Z$, $L > S$, $C > T$.

Conclusions: I. $P > L$ II. $T < P$

Options :

1. If only conclusion I is true
2. If only conclusion II is true
3. If both conclusions I and II are true
4. If either conclusion I or II is true
5. If neither conclusion I nor II is true

Answer : If only conclusion II is true

Direction:

In these questions, relationship between different elements is shown in the statements. The statements are followed by conclusions. Study the conclusions based on the given statements and select the appropriate answer. Give answer-

- Question No. 98

Statements: $D > W$, $J = Q$, $J < D > S > A$

Conclusions: I. $Q > W$ II. $Q \leq W$

Options :

1. If only conclusion I is true
2. If only conclusion II is true
3. If both conclusions I and II are true
4. If neither conclusion I nor II is true
5. If either conclusion I or II is true

Answer : If either conclusion I or II is true

Direction:

In these questions, relationship between different elements is shown in the statements. The statements are followed by conclusions. Study the conclusions based on the given statements and select the appropriate answer. Give answer-

- Question No. 99

Statements: $E > M > L$, $Y > E > R$, $A > C < R$

Conclusions: I. $L < Y$ II. $C < E$

Options :

1. If only conclusion I is true
2. If only conclusion II is true
3. If both conclusions I and II are true
4. If either conclusion I or II is true
5. If neither conclusion I nor II is true

Answer : If both conclusions I and II are true

Direction:

In these questions, relationship between different elements is shown in the statements. The statements are followed by conclusions. Study the conclusions based on the given statements and select the appropriate answer. Give answer-

- Question No. 100

Statements: $F \geq S$, $U < F$, $O > T \geq S$

Conclusions: I. $O < S$ II. $U > S$

Options :

1. If only conclusion I is true
2. If only conclusion II is true
3. If both conclusions I and II are true
4. If either conclusion I or II is true
5. If neither conclusion I nor II is true

Answer : If neither conclusion I nor II is true
