

• Question No. 1

What is the LCM of 6,7,8 and 9?

Options :

1. 502
2. 504
3. 500
4. None of these
- 5.

Answer : 504

• Question No. 2

Which term of the series is incorrect?

3, 8, 15, 24, 34, 48, 63

Options :

1. 34
2. 15
3. 8
4. 48
- 5.

Answer : 34

• Question No. 3

What is 25% of 500?

Options :

1. 225

2. 125
3. 100
4. 120
- 5.

Answer : 125

• Question No. 4

The average weight of 17 girls is 20 kg and that of 23 boys is 22 kg. Find the average weight of the class?

Options :

1. 21.15 kg
2. 21.15 g
3. 20.15 kg
4. 20 kg
- 5.

Answer : 21.15 kg

• Question No. 5

After 9 o'clock at what time between 9 pm and 10pm, will the hour and the minute hands of a clock point in opposite direction?

Options :

1. $17\frac{1}{4}$ minutes past 9
2. $16\frac{4}{11}$ minutes past 9
3. 16 minutes past 9
4. 15 minutes past 9
- 5.

Answer : 15 minutes past 9

- Question No. 6

Rs. 3200 is divided in the ratio 5:2:9 between P, Q and R. What is the amount received by Q?

Options :

1. 350
2. 300
3. 400
4. 200
- 5.

Answer : 400

- Question No. 7

Which number is 40% less than 360?

Options :

1. 90
2. 270
3. 216
4. 144
- 5.

Answer : 216

- Question No. 8

Find the least number which when divided by 36, 48 and 64 leaves the remainders 25, 37 and 53 respectively.?

Options :

1. 567
2. 565
3. 465

4. 566

5.

Answer : 565

- Question No. 9

The clock is divided into equal minute divisions?

Options :

1. 50

2. 55

3. 70

4. 60

5.

Answer : 60

- Question No. 10

The sum of the squares of three numbers is 532 and the ratio of the first to the second as also of the second to the third is 3:2. What is the second number?

Options :

1. 14

2. 10

3. 12

4. 11

5.

Answer : 12

- Question No. 11

5/11 is 3/11.

Options :

1. Smaller than
2. Greater than
3. Equal to
4. Greater than equal to
- 5.

Answer : Greater than

- Question No. 12

What is the square root of 64009?

Options :

1. 453
2. 153
3. 253
4. 353
- 5.

Answer : 253

- Question No. 13

What is the value of missing number in the sequence

2,4,8,16,32, ..., 128 ?

Options :

1. 67
2. 66
3. 65
4. 64
- 5.

Answer : 64

• Question No. 14

How can probability be defined?

Options :

1. Number of favourable outcomes for an event/Number of possible outcomes (total)
2. Number of favourable outcomes for an event X Number of possible outcomes (total)
3. Number of favourable outcomes for an event + Number of possible outcomes (total)
4. None of these
- 5.

Answer : Number of favourable outcomes for an event/Number of possible outcomes (total)

• Question No. 15

What is the formula for Average?

Options :

1. Sum of all items – Number of items
2. Sum of all items / Number of items
3. Sum of all items X Number of items
4. Sum of all items + Number of items
- 5.

Answer : Sum of all items / Number of items

• Question No. 16

Which is the correct alternative for X?

Aeroplane: Cockpit :: Train : X

Options :

1. Engine
2. Compartment
3. Coach
4. Wagon
- 5.

Answer : Engine

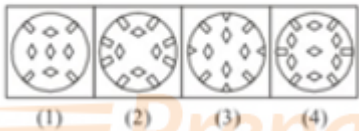

• Question No. 17

A piece of paper is folded and punched as shown below. From the given responses indicate how it will appear when opened.

Question Figures :

Answer Figures :

Options :

1. A
2. C
3. B
4. D
- 5.

Answer : B

• Question No. 18

Which is the one that does not belong to the group?

Options :

1. 23
2. 17
3. 19
4. 27
- 5.

Answer : 27

• Question No. 19

In every hour both the hands of the clock coincide, so the angle between them is _____ degrees. ?

Options :

1. 360
2. 10
3. 180
4. 0
- 5.

Answer : 0

• Question No. 20

In a certain code language 'how old are you' is written as 'ko to po ha' and 'you are very beautiful' is written as 'na po da to'. How is 'how' written in that language?

Options :

4. Implementation stage
- 5.

Answer : Intelligence stage

- Question No. 65

The types of animal tissues include

Options :

1. Epidermal tissues
2. Muscular tissues
3. Synthetic tissues
4. Ground tissue
- 5.

Answer : Muscular tissues

- Question No. 66

Supply chain lead time is the sum of time taken for

Options :

1. Sourcing the materials
2. Manufacturing the product
3. Delivering the finished product to the end customer
4. All of these
- 5.

Answer : All of these

- Question No. 67

Where do grasshoppers lay eggs?

Options :

1. In water
2. In nests
3. In the soil

4. All of these

5.

Answer : In the soil

• Question No. 68

Which is a single use plan that covers a relatively large set of activities?

Options :

1. Rule

2. Program

3. Procedure

4. Project

5.

Answer : Program

• Question No. 69

Indicator plant for P deficiency indication is

Options :

1. Maize

2. Tomato

3. Maize and Tomato both

4. None of these

5.

Answer : Maize and Tomato both

• Question No. 70

Which is a common crop which is grown of natural autopolyploid?

Options :

1. Tomato
2. Rice
3. Cotton
4. Potato
- 5.

Answer : Potato

• Question No. 71

Income elasticity of inferior goods is

Options :

1. Between zero to one
2. Positive
3. Infinite

4. Third product logistics
- 5.

Answer : Third Party logistics

- Question No. 74

The word "Agronomy" has originated from.....?

Options :

1. Latin words
2. English words
3. German words
4. Greek words
- 5.

Answer : Greek words

- Question No. 75

Complete metamorphosis is found in

Options :

1. Exopterygota
2. Endopterygota
3. Apterygota

4. None of these

5.

Answer : Endopterygota

- Question No. 76

India receives most of its rainfall from monsoon?

Options :

1. N-W

2. N-E

3. S-W

4. S-E

5.

Answer : S-W

- Question No. 77

One honey bee hive hasdrones?

Options :

1. More than 300

2. 200 to 300

3. 1 to 5

4. 10 to 20

5.

Answer : 200 to 300

- Question No. 78

In jute growing areas the usual alternate crop is

Options :

1. Cotton
2. Sugarcane
3. Wheat
4. Rice
- 5.

Answer : Rice

• Question No. 79

Most effective pesticides are

Options :

1. Carbamates
2. Organochlorine
3. Organophosphates
4. All of these
- 5.

Answer : All of these

• Question No. 80

The ability of a microorganism to cause disease is called.....?

Options :

1. Virulence
2. Inoculum potential
3. Pathogenicity
4. Disease potential
- 5.

Answer : Pathogenicity

- Question No. 81

Factors affecting international product planning is

Options :

1. Political environment
2. Demography
3. Income of customers
4. All of these
- 5.

Answer : All of these

- Question No. 82

Crop grown for sale to bring money immediately is termed as

Options :

1. Catch crop
2. Cash crop
3. Trap crop
4. All of these
- 5.

Answer : Cash crop

- Question No. 83

Sunflower is an

Options :

1. Annual herb
2. Biennial herb
3. Perennial herb

4. None of these

5.

Answer : Annual herb

• Question No. 84

Development of precision GIS/GPS auto negative systems increased the efficiency of field operations in?

Options :

1. Precision farming

2. Conservation agriculture

3. Cooperative farming

4. Multistorey farming

5.

Answer : Precision farming

• Question No. 85

Industrial relations consists of the relations between?

Options :

1. Employer and employees

2. State and Management

3. Union and management

4. All of these

5.

Answer : Employer and employees

• Question No. 86

4. 26%
- 5.

Answer : 58%

• Question No. 95

Which of these is included in the mental process of acceptance or rejection of a new product?

Options :

1. Awareness
2. Knowledge
3. Evaluation
4. All of these
- 5.

Answer : All of these

• Question No. 96

Genes do not occur in pairs

Options :

1. Somatic cells
2. Zygote
3. Endosperm cells
4. Gametes
- 5.

Answer : Gametes

- Question No. 97

ECR stands for.....?

Options :

1. Effective customer reply
2. Effective customer response
3. Efficient consumer response
4. Effective consumer response
- 5.

Answer : Efficient consumer response

- Question No. 98

The excess of income over consumption is called.....?

Options :

1. Surplus
2. Income
3. Services
4. Goods
- 5.

Answer : Surplus

- Question No. 99

Which system provides the accurate positional information, which will be more useful in locating the spatial variability with accuracy?

Options :

1. GPS
2. GIS

3. DSS
4. All of these
- 5.

Answer : GPS

• Question No. 100

Covering the soil surface by any organic material is termed as

Options :

1. Green manuring
2. Mulch
3. Nurse crop
4. None of these
- 5.

Answer : Mulch

• Question No. 101

- 5.

Answer : Puddling

• Question No. 103

Which of the following is not a factor of production?

Options :

1. Customer
2. Land
3. Labour
4. Capital
- 5.

Answer : Customer

• Question No. 104

Which system provides the accurate positional information, which will be more useful in location the spatial variability with accuracy?

Options :

1. DSS
2. GPS
3. GIS
4. All of these
- 5.

Answer : GPS

- Question No. 105

legumes crop also known as oilseeds

Options :

1. Lentil
2. Urdbean
3. Soybean
4. Chickpea
- 5.

Answer : Soybean

- Question No. 106

An exchange of genetic material between homologous chromosomes is called

Options :

1. Introgression
2. Mutation
3. Recombination
4. Crossing over
- 5.

Answer : Crossing over

- Question No. 107

Urban agriculture contributes to

Options :

1. Food security

2. Food safety
3. Both of these
4. None of these
- 5.

Answer : Both of these

- Question No. 108

Which one of the following techniques is used to monitor crop health?

Options :

1. Surveillance
2. Vigilance
3. Remote sensing
4. All of these
- 5.

Answer : All of these

- Question No. 109
